Subject: PHASE I ENVIRONMENTAL SITE ASSESSMENT REPORT
514 North Prospect Avenue
Redondo Beach, California
Converse Project No. 18-41-296-01

Mr. Dickey:

Converse Consultants (Converse) is pleased to submit the attached report that summarizes the activities and the results of a Phase I Environmental Site Assessment (Phase I ESA) that was conducted at the referenced property.

A summary of the assessment is presented in the Executive Summary, as well as in Sections 8.0, 9.0, and 10.0 of the report. Recognized Environmental Conditions were identified during the course of this assessment.

We appreciate the opportunity to be of service. Should you have any questions or comments regarding this report, please contact Spencer Wagner at (626) 930-1200 or Norman S. Eke at (626) 930-1260.

Executive Summary

The following is an Executive Summary of the Phase I Environmental Site Assessment (Phase I ESA) that was conducted by Converse Consultants (Converse). Please refer to the appropriate sections of the report for a complete discussion of these issues. In the event of a conflict between this Executive Summary and the report, or an omission in the Executive Summary, the report shall prevail.

This report presents the results of the Converse Phase I ESA performed at 514 North Prospect Avenue in the City of Redondo Beach, Los Angeles County, California, referred to as the Property in this report. Converse was retained by Beach Cities Health District to conduct this Phase I ESA. Our study has been conducted in order to identify, to the extent practical within the scope of an ESA, Recognized Environmental Conditions (RECs) in connection with the Property.

Converse has compiled and reviewed information that was obtained from interviews, document research, and on-site and area reconnaissance to identify potential environmental conditions at the Property, in conformance with the ASTM Standard E: 1527-13 Environmental Site Assessment Standard Practice (ASTM Standard: E1527- 13). This Phase I ESA was conducted during the period of November 28, 2018 to May 15, 2019.

Report Section		No Further Action	REC	CREC	HREC	Other Environmental Considerations	Recommended Action
3.0	USER PROVIDED INFORMATION & RESPONSIBILITIES	✓					
5.2.5	Summary of Historical Property Use	✓					

Report Section		No Further Action	REC	CREC	HREC	Other Environmental Considerations	Recommended Action
5.2.6	Summary of Past Uses of Adjoining Properties	✓				✓	A gas station has been located in the northwestern adjoining property since as early as 1972, the station has undergone site investigation and the RWQCB issued a "case-closed" designation for the Property in April 2012.
5.2.7	Summary of Past Uses of the Surrounding Area	✓					
5.3.1	Property Listings	✓				✓	The presence of an underground storage tank (UST) on the Property is considered an environmental concern that does not rise to the level of a REC.

Report Section		No Further Action	REC	CREC	HREC	Other Environmental Considerations	Recommended Action
5.3.2	Adjoining Properties	✓				✓	Based on the regulatory status of the northwestern adjoining Shell Service Station (1200 Beryl Street) and the former landfill (Dominguez Park - 200 Flagler Lane), these sites are not considered RECs. Based on the lack of information suggesting an unauthorized release at the former drycleaners on the northwestern adjoining property (1232 Beryl Street), and the significant difference in elevation (20 feet) between the Property and former drycleaners, the site is not expected to be a REC connection with the Property but is of concern for

1.0 INTRODUCTION

1.1 Purpose and Scope of Services

This report presents the results of the Converse Consultants (Converse) Phase I Environmental Site Assessment (ESA) performed at 514 North Prospect Avenue in the City of Redondo Beach, Los Angeles County, California, referred to as the Property in this report. Converse was retained by Beach Cities Health District to conduct this Phase I ESA. Our study has been conducted in order to identify, to the extent practical, Recognized Environmental Conditions (RECs) in connection with the Property. The term Recognized Environmental Conditions is defined in Section 1.1.1 of the American Society of Testing and Materials (ASTM) Standard Practice as the presence or likely presence of any hazardous substances or petroleum products in, at or on a property due to any release to the environment; under conditions indicative of a release to the environment; under conditions that pose a material threat of a future release to the environment.

This Phase I ESA was completed in accordance with our proposal dated November 28, 2018. Our work consisted of the following and was completed in general conformance with the scope and limitations of the ASTM Practice E1527-13 and complies with standards and practices set forth in 40 Code of Federal Regulations (CFR) Part 312 for AAI.

- Interviews with the Property owner representatives
- Property and vicinity reconnaissance
- Review of regulatory agency records
- Description of physical setting
- Historical review
- Interviews with public agency personnel
- Preparation of this report

1.2 Non-Scope Considerations

There are a number of non-scope issues which are sometimes assessed concurrently with a Phase I ESA. Unless specifically agreed in the contract proposal documents, these non-scope considerations are not included as part of the Phase I ESA.

Examples of non-scope issues include:

- Asbestos-containing Building Materials
- Biological Agents
- Cultural & Historic Resources
- Diffuse Anthropogenic Pollution
- Ecological Resources
- Endangered Species
- Health & Safety
- Indoor Air Quality
- Industrial Hygiene
- Lead-base Paints
- Lead in Drinking Water
- Mold
- Non-liquid Polychlorinated Biphenyls
- Radon
- Regulatory Compliance
- Wetlands

No Non-Scope issues were addressed in this report.

1.3 Significant Assumptions

No assumptions were made for this assessment that need to be noted as significant.

1.4 Limitations and Exceptions

The following limitations and exceptions were encountered during the course of this assessment:

- Converse was not able to interview any of the onsite tenants, with the exception of a Property owner representative who maintains office space at the Property.
- Converse was only provided limited access to the former hospital building (514 N. Prospect Avenue), and was not provided access to either of the medical office buildings (510 and 520 N. Prospect Avenue).
- As of the date of this report, Converse has not received a response to our request for records for Property addresses 510 and 520 N. Prospect Avenue from the Department of Toxic Substances Control (DTSC) and Los Angeles County Sanitation Districts (LACSD).

1.5 Special Terms and Conditions

The Client was responsible for providing Attachment A of the proposal to those identified. Converse did receive a completed Attachment A, or other documents, from the identified users.

1.6 Reliance

This report is for the sole benefit and exclusive use of Beach Cities Health District in accordance with the terms and conditions attached to our proposal under which these services have been provided. Its preparation has been in accordance with generally accepted environmental practices. No other warranty, either express or implied, is made. The Scope of Services associated with the report was designed solely in accordance with the objectives, schedule, budget, and risk-management preferences of Beach Cities Health District.

This report should not be regarded as a guarantee that no further contamination, beyond that which could be detected within the scope of this assessment, is present at the Property. Converse makes no warranties or guarantees as to the accuracy or completeness of information provided or compiled by others. It is possible that information exists beyond the scope of this assessment. It is not possible to absolutely confirm that no hazardous materials and/or substances exist at the Property. If none are identified as part of a limited scope of work, such a conclusion should not be construed as a guaranteed absence of such materials, but merely the results of the evaluation of the property at the time of the assessment. Also, events may occur after the Property visit, which may result in contamination of the Property. Additional information, which was not found or available to Converse at the time of report preparation, may result in a modification of the conclusions and recommendations presented.

Any reliance on this report by Third Parties shall be at the Third Party's sole risk. Should Beach Cities Health District wish to identify any additional relying parties not previously identified, a completed Application of Authorization to Use (see Appendix A of this report) must be submitted to Converse Consultants.

2.0 PROPERTY DESCRIPTION

Item	Comment
Current Use(s) of the Property	The Property is owned by Beach Cities Health District, and is developed with a former hospital building (currently a long-term care facility, and medical office space), two (2) medical office buildings, a maintenance building, and two (2) parking garages. A portion of the Property is vacant land. A separate portion of the Property consists of a portion of a Flagler Lane (east of the Property) including a portion of the hillside along the eastern boundary of the Property that is currently owned by the City of Torrance. A Property location map and a field generated Property plan are provided in Appendix B. Pertinent Property photographs are provided in Appendix C.
Location and Legal Description	The Property is located at 514 North Prospect Avenue, Redondo Beach, California. The Property is located on the north side of the intersection of Prospect Avenue and Diamond Street. The Property is located approximately 2.4-miles southwest of the San Diego (405) Freeway, and 1.1-mile east of the Pacific Ocean. The Property consists of two (2) parcels and is approximately 10.38-acres. The Los Angeles County Assessor's Parcel Numbers for the Property are 7502-017-901 and 7502-017-902. The legal description of the Property is described as the following: <u>APN: 7502-017-901 (Parcel 1)</u> *TR=PARCEL MAP AS PER BK 144 P 2-3 OF PM LOT 1 <u>APN: 7502-017-902 (Parcel 2)</u> *TR=PARCEL MAP AS PER BK 144 P 2-3 OF PM LOT 2 A third parcel that is part of this report is currently owned by the City of Torrance and includes a portion of undeveloped hillside, and a portion of Flagler Lane. No parcel number was available for this parcel.

Item	Comment
Zoning Information	According to the City of Redondo Beach, Planning Department, there are two (2) different zoning designations. The larger parcel (Parcel 1) that contains the three (3) medical buildings is zoned P-CF for institutional use. The smaller vacant parcel (Parcel 2) is zoned C-2 for commercial use. The third partial parcel is owned by the City of Torrance. According to the City of Torrance, the parcel is zoned R-1 for single-family residential.
Property Characteristics	The Property consists of two (2) irregular-shaped parcels containing approximately 10.38-acres. The main parcel (Parcel 1) slopes from the northeast to the northwest and is located on a hillside. The Property is developed with four (4) buildings, and two (2) parking garages. The buildings are occupied by Beach Cities Health District Center for Health and Fitness, and Silverado (514 N. Prospect Avenue), Cancer Care Associates (510 N. Prospect Avenue), and Providence (520 N. Prospect Avenue). The remainder of the Property consists of asphalt-covered parking areas. The smaller parcel (Parcel 2) is located approximately 20-feet lower in elevation than Parcel 1, and is currently vacant land. A third parcel (Parcel 3) that is included in this assessment is one that Beach Cities Healthcare District is intending on purchasing, and consists of an undeveloped hillside and a portion of Flagler Lane located east of Parcels 1 and 2. The Property fronts onto N. Prospect Avenue on the southwest, and Beryl Street on the north. Properties in the general area are used for commercial and residential purposes.

Item	Comment
Description of Property Structure(s)	There are four (4) buildings and two (2) parking structures located on the Property. The 510 N. Prospect Avenue medical office building is a two-story concrete and steel reinforced structure with painted concrete exterior. The main medical building (514 N. Prospect Avenue) is a five-story concrete and steel-reinforced structure with painted concrete exterior. The third medical office building (520 N. Prospect Avenue) is a three-story concrete and steel-reinforced building with painted concrete exterior. The fourth building is a wood-beamed and concrete masonry-unit (CMU) maintenance building. Converse was not provided access to the 510 or 520 N. Prospect Avenue buildings. Converse was provided access to a vacant portion of the third floor of the 514 N. Prospect Avenue building. Building materials consisted of painted drywall, acoustic drop-tile ceilings, and commercial carpeting. The interior of the maintenance building consisted of concrete flooring, CMU walls, and open-beam ceiling.
The following services were present at the Property at the time of the assessment.	
Electricity:	Southern California Edison (SCE)
Gas:	The Gas Company
Potable Water:	California Water Service
Sanitary Sewer:	Sanitation Districts of Los Angeles
Heating, Ventilation, Air Conditioning (HVAC):	Roof-mounted HVAC units, chiller units

Item	Comment
Solid Waste:	Athens Disposal

3.0 USER PROVIDED INFORMATION & RESPONSIBILITIES

3.1 Requested Documents and Information

The ASTM E1527-13 specifies that the User, Beach Cities Health District provide any helpful documents that may be available, as listed below.

- Environmental site assessment or environmental compliance audit reports
- Environmental permits or hazardous waste generator notices/reports
- Registrations for aboveground and underground storage tanks
- Septic systems, oil wells, or water wells
- Registrations for underground injection systems
- Material Safety Data Sheets; Community Right to Know Plans; or Safety, Preparedness and prevention Plans; Spill Protection Countermeasures and Control Plans
- Reports regarding hydrologic conditions on the Property or surrounding area
- Notices or other correspondence from any government agency relating to past or current violations of environmental laws with respect to the Property or relating to environmental liens encumbering the Property.
- Hazardous waste generator notices or reports
- Geotechnical studies
- Risk assessments
- Recorded Activity Use Limitations (AULs)
- Proceedings regarding hazardous substances and petroleum products including any pending, threatened or past: litigation; administrative proceedings; or notices from any governmental entity regarding possible violations of environmental laws or other possible liability related to hazardous substances or petroleum products.

The User provided title reports to the Property parcels, recorded easements with the City of Redondo Beach, a lease agreement with a tenant, and property parcel maps. No items of environmental concern were noted except for the following:

- In a lease agreement with Amibus, the lease agreement states that a portion of the Property contains "an oil-drilling site". According to the User representative, Mr. Dickey, an oil well was formally located on Parcel 2 but has since been designated as "plugged".

3.2 User Provided Information

Section 6 of ASTM E1527-13 outlines specific User's responsibilities. This information will help identify the possibility of RECs in connection with the Property. The ASTM Standard provides a questionnaire to help the User to comply with the statutory requirements to perform tasks which would help identify RECs. Converse included the questionnaire as Attachment A to our proposal. In general, any Users should make Converse aware of information they have regarding the following:

- Environmental Cleanup Liens filed or recorded against the Property
- Activity and land use limitations that are in place on the Property or have been filed or recorded in a registry.
- Specialized knowledge or experience of the person seeking to qualify for the Legal Liability Protections (LLP)
- Relationship of the purchase price to fair market value of the Property if it were not contaminated
- Commonly known or reasonably ascertainable information about the Property
- The degree or obviousness of the presence or likely presence of contamination at the Property, and the ability to detect this contamination by appropriate investigation.

The following information was requested from the User, Beach Cities Health District:

3.2.1 Environmental Cleanup Liens

The User was not aware of any information regarding environmental cleanup liens. Title records did not indicate the presence of any environmental cleanup liens.

3.2.2 Activity and Use Limitations

The User did not provide any information indicating they were aware of any AULs.

3.2.3 Specialized Knowledge or Experience

The User stated that the Property was formerly developed as farm land, followed by a hospital, and that the Property is now developed with commercial medical buildings. In addition, the User stated that there is a permitted underground

storage tank (UST) located on Parcel 1, and that an oil well formerly operated on Parcel 2.

3.2.4 Reason for Significantly Lower Purchase Price

Converse has no information regarding the purchase price of the Property or comparable properties. The User has not indicated to Converse that there is any conclusion that there was a lower purchase price because of known or suspected contamination at the Property.

3.2.5 Commonly Known or Reasonably Ascertainable Information

The User did not provide any information about past uses, specific chemicals at the Property, past spills, environmental cleanup or other reasonably ascertainable information regarding the Property. See section 3.2.3 for a discussion of information the User provided.

3.2.6 Obviousness of Contamination

The User did not provide any information based on their knowledge or experience that would be obvious indicators of contamination on the Property.

Unless specifically stated otherwise in the Scope of Services, the purpose of this Phase I ESA was to qualify for the landowner liability protections to CERCLA Liability as described in ASTM E1527-13.

Business risk unrelated to the CERCLA innocent landowners defense are only assessed as specifically agreed in the Scope of Services and discussed in Section 11.0, Additional Non-Scope Services, of this report.

3.3 Continuing Obligations

In order to assert a LLP, the User must satisfy a number of statutory requirements that are generally referred to as Continuing Obligations, which are outside the Scope of Services of the Phase I ESA. Examples of Continuing Obligations include providing legally required notices, stopping continuing releases and complying with land use restrictions. Failure to comply with these and other statutory post-acquisition

requirements will jeopardize liability protection.

It is the responsibility of the User to comply with the Continuing Obligations requirements of ASTM E1527-13 and AAI. Anyone seeking LLP protections should take independent action beyond this Phase I ESA to perfect their position.

4.0 OWNER PROVIDED INFORMATION

The ASTM E1527-13 specifies that the Property owner and the Key Site Manager provide any helpful documents that may be available as listed below.

- Environmental site assessment or environmental compliance audit reports
- Environmental permits or hazardous waste generator notices/reports
- Registrations for aboveground and underground storage tanks
- Septic systems, oil wells, or water wells
- Registrations for underground injection systems
- Material Safety Data Sheets; Community Right to Know Plans; or Safety, Preparedness and Prevention Plans; Spill Protection Countermeasures and Control Plans
- Reports regarding hydrologic conditions on the Property or surrounding area
- Notices or other correspondence from any government agency relating to past or current violations of environmental laws with respect to the Property or relating to environmental liens encumbering the Property.
- Hazardous waste generator notices or reports
- Geotechnical studies
- Risk assessments
- Recorded AULs
- Proceedings regarding hazardous substances and petroleum products including any pending, threatened or past: litigation; administrative proceedings; or notices from any governmental entity regarding possible violations of environmental laws or other possible liability related to hazardous substances or petroleum products.

The User and Owner are the same entity. Please see Section 3.1 for a discussion of information provided.

5.0 RECORDS REVIEW

5.1 Physical Setting

Item	Comments
Physical Setting:	The Property is located approximately 170 feet above mean sea level with surface topography sloping towards the south/southeast (United States Geological Survey [USGS] Topographic Map, Redondo Beach/Torrance, California, 2018).
Geology:	The Property is underlain by unconsolidated and semi-consolidated alluvium, lake, playa, and terrace deposits (Division of Mines and Geology, Geologic Map of California, 2010).
Groundwater:	According to case files related to a former leaking underground storage tank (LUST) case at the Property, groundwater at the Property is anticipated to be approximately 150 feet beneath ground surface (bgs) and flow direction is expected to be to the east. According to a site investigation report, several soil borings were completed at the Property to depths of 40-feet bgs, and groundwater was not encountered in any of the borings.
Potable Water Supply:	Potable water is supplied by California Water Service.

5.2 Historical Review

5.2.1 Aerial Photograph and Map Review

Available historical aerial photographs and historical maps, which were provided by Environmental Risk Information Services (ERIS), were reviewed.

A summary of the review is provided in the following table. Copies of the aerial photographs and maps are provided in an appendix to this report.

Table 1 – Historical Resource Review

Property	Adjoining Properties	General Vicinity
1896 Topographic Map		
Undeveloped	Undeveloped	Undeveloped

5.2.2 Building Permit Review

Available building permits were reviewed at the City of Redondo Beach, Department of Building & Safety. Permits for the range of addresses 2010-2020 Prospect Avenue were reviewed. A chronological summary is provided below.

Date	Comments
510 N. Prospect Avenue	
March 9, 1976	A building permit (Nos. 45888 and 45889) for the construction of a 37,000 square-foot medical building and 600 square-foot storage room were issued to South Bay Hospital.
512 N. Prospect Avenue	

Date	Comments
January 18, 1989	A building permit (No. 890038) was issued for the construction of a parking garage with 1/2 floor of subterranean parking, two (2) levels of above-grade parking, and one (1) level of rooftop parking was issued for the Property.
February 23, 1989	A grading permit (No. 0052GS) was issued for the Property.
514 N. Prospect Avenue	
April 21, 1958	A building permit (No. 29933) for the construction of a 56,100 square-foot, five-story, 149 bed hospital was issued for the Property.
February 19, 1979	A building permit (No. 48765) was issued for the construction of a 350 square-foot mechanical room.
September 2, 1998	A building permit (No. B980729) was issued to install a 10,000-gallon diesel fuel underground storage tank (UST) with aboveground piping and monitoring.
520 N. Prospect Avenue	
February 22, 1989	A building permit (No. B90206) for the construction of a three-level medical office building with two (2) levels of subterranean parking was issued for the Property.

5.2.3 City Directories

A city directory search was completed on the Property by EDR. The complete city directory is provided in Appendix D, Historical Research.

The Property was identified under the following listings in the directories published during the years indicated:

The Property, as 514 N. Prospect Avenue, was identified as being occupied by South Bay Hospital and other medical listings from as early as 1965 to 1998, and

by medical office listings from as early as 2003 through the present.

The Property, as 510 N. Prospect Avenue, was identified under various medical office listings from as early as 1978 through the present.

The Property as 520 N. Prospect Avenue, was identified under various medical office listings from as early as 1995 through the present.

Adjoining properties were listed under residential listings in the city directory abstract, or were not listed in the abstract.

5.2.4 Data Failure

Historical information regarding the Property indicated the Property was undeveloped land as early as 1896. Therefore, no historical data failure occurred during this assessment.

5.2.5 Summary of Historical Property Use

The Property appeared to be undeveloped as early as 1896. The Property was developed for agricultural use, including a pond in the center of Parcel 1, from as early as 1924 to 1941. Parcel 1 appeared vacant, and Parcel 2 appeared developed with a small pond in 1947. By 1951, the Property appeared partially graded, and by 1956 the Property appeared developed with a baseball field. By 1963, the Property appeared developed with the existing hospital building, Parcel 2 appeared vacant, and Parcel 3 appeared developed with part of a roadway. In 1976, the second medical office building (510 N. Prospect Avenue) was constructed on Parcel 1. In 1989, the third medical office building was constructed on Parcel 1. Parcel 2 has remained vacant.

5.2.6 Summary of Past Uses of Adjoining Properties

Adjoining properties were typically undeveloped as early as 1896, and developed for agricultural use from the 1920s through the 1930s. The adjoining properties were typically vacant and/or graded land from the 1940s through the 1970s. The northeastern adjoining property appeared developed as a landfill from as early as 1951 to 1963. By the 1970s, the adjoining properties were typically developed for commercial and/or residential uses. The northeastern adjoining property was

developed with a park during this same period. A gas and oil service station has been present on the northwestern adjoining property from as early as 1972 through the present.

5.2.7 Summary of Past Uses of the Surrounding Area

The surrounding area was typically undeveloped as early as 1896. The area was typically developed for agricultural use with sporadic residential developments throughout the 1920s and 1930s, and was primarily vacant and/or residential developments from the 1940s through the 1960s. The area was primarily developed for commercial and residential uses from the 1980s through the present.

5.3 Results of Environmental Records Sources Review

An ERIS Database Report was prepared specifically for the Property, adjoining properties and other off-site locations of concern. The search included queries to the following databases for cases within specified ASTM search distances. A copy of the database report is provided in an appendix to this report.

5.3.1 Property Listings

The Property as 510 N. Prospect Avenue was listed in various databases for the generation of various quantities of metal sludge, other inorganic solid waste, oxygenated solvents, photochemicals/photoprocessing waste, and unspecified oil-containing waste between 1998 and the present.

The Property as 512 N. Prospect Avenue was listed in the CHMIRS database based on an unauthorized release of 5-gallons of paint thinner that entered a storm drain in a parking garage. The Fire Department responded and the matter was resolved.

The Property as 514 N. Prospect Avenue, was identified in multiple databases in the regulatory database report. The Property was listed in the CERS Tank report for various violations including failure to maintain proper paperwork/records, failure to test system components, failure to properly service equipment, and failure to maintain response plans. Various tenants were identified in the FINDS/

FRS and Emissions databases for various emissions. The Property was identified in the Hist Manifest database for the generation of various quantities of asbestos containing waste, oxygenated solvents, laboratory waste chemicals, metal sludge, waste-oil and mixed-oil, polychlorinated biphenyls, off-specification aged or surplus organics, aqueous solution with total organic residues less than 10 percent, unspecified oil-containing waste, unspecified solvent waste, other inorganic solid waste, tank-bottom waste, and pharmaceutical waste between 1986 and the present. The site was also listed in the Leaking Underground Storage Tank (LUST) database for an unauthorized release of petroleum hydrocarbons that impacted soil at the Property. The release was discovered during the removal/replacement of an underground storage tank (UST) in January 2008. According to the database, the Property was issued a "completed-case closed" designation on July 14, 2015.

The Property as 520 N. Prospect Avenue was listed in various databases for the generation of hazardous wastes by various tenants.

5.3.2 Adjoining Properties

The following adjoining properties were identified in the report:

- 1400 Beryl Street - The Property is located northeast of the Property, across the intersection of Beryl Street and Flagler Lane. The site is listed in various databases as a landfill property that operated from 1904 to 1967. The facility was listed as accepting "inert; residential" wastes. The facility is currently listed

as "closed" and is listed as being developed with Dominguez Park. The site is listed in the Cleanup Sites and LDS databases as a landfill disposal site that underwent cleanup beginning in January 1989. The facility was issued a "completed-case closed" designation on October 1, 2012.

- 1232 Beryl Street - A dry cleaner site is listed in the northwestern adjoining shopping center that is located approximately 20 feet lower in elevation from the Property. Coury & Son Cleaners was listed in various databases in the report for the various violations related to failures to maintain an active EPA Identification number, and failure to prepare a business plan when handling hazardous materials. The site is listed as a drycleaners in the Federal Drycleaners database. The facility appeared to have operated at the site from as early as 1990 to 2018.
- 1200 Beryl Street - The site is located at the southwest corner of the northwestern adjoining shopping center (approximately 260 feet from the Property). This site is also located approximately 20 feet lower in elevation than the Property. The site is listed in the report for various violations related to improper paperwork, improper monitoring, failure to maintain copies of relevant permits/plans onsite, failure to maintain an approved response plan, failure to submit test results within 30 days of testing date, and failure to maintain a complete plot plan. All of these violations were returned to compliance. The site is listed in various other databases based on the operation of USTs, and the use of hazardous materials. The site is listed in the LUST database for an unauthorized release that was discovered at the site in 2004. According to the database, the potential contaminant of concern was gasoline. The site was issued a "closure-no further action" letter on April 12, 2012.
- Multiple other retail store/grocery store listings from within the shopping center were identified in the report for the generation of small quantities of hazardous wastes. No evidence suggesting any unauthorized releases were identified in the report.

5.3.3 Other Off-site Locations of Concern

Other off-site locations of concern identified by EDR within a maximum one-mile radius from the Property included RCRA CORRACTS, hazardous waste generators, ENVIROSTOR, SWF/LF, LUST sites, UST sites, voluntary cleanup sites, hazardous material incident report sites, drycleaner sites, and site mitigation sites. These sites do not appear to be an environmental concern in connection with the Property based on the types of listings, the status of the sites, or the distance from the Property.

5.3.4 Orphan Listings

The database report identified 11 orphan listings. The locations of sites that were identified by address were found to be in the general vicinity of the Property; however, due to distance, and/or type of listing were determined to have a low potential for environmental concern to the Property.

Other orphan sites were identified only by street name. These street names were found in the general vicinity of the Property; however, the specific site locations could not be determined. These orphan sites appeared to have a low potential for environmental impact to the Property due to one or more of the following: type of regulatory listing; and/or distance from the Property;

5.4 Additional Environmental Record Sources

Federal Agencies

Federal Agencies	
Source	Comments
U.S. Department of Transportation, Pipeline and Hazardous Material Safety Administration (PHMSA)	The PHMSA online mapping system for gas transmission pipelines and hazardous liquid pipelines on the Property or adjacent properties was reviewed (https://www.npms.phmsa.dot.gov/PublicViewer/). An active crude-oil pipeline operated by Chevron Pipeline Co. is located in Prospect Avenue to the west/southwest of the Property.

State Agencies

State Agencies	
Source	Comments
California Environmental Protection Agency (Cal/EPA) Department of Toxic Substances Control (DTSC)	No information regarding 514 N. Prospect Avenue was on file with DTSC. As of the date of this report, the DTSC has not responded to our request for records for the additional Property addresses (510 and 520 N. Prospect Avenue). The Envirostor website (http://www.envirostor.dtsc.ca.gov/public/) was reviewed for information, and the Property was not listed in the database.

State Agencies	
Source	Comments
Cal/EPA, Regional Water Quality Control Board (RWQCB)	The Geotracker website (http://geotracker.waterboards.ca.gov/) was reviewed for information, and the Property address 514 N. Prospect Avenue was listed on the database. The other property addresses were not listed in the database. According to the database, in January 2008, two (2) soil samples (PL1 and PL2) were collected from a depth of 2.0 to 2.5-feet beneath ground surface (bgs) during the replacement of product piping lines near the UST located on the Property. Results indicated the presence of total petroleum hydrocarbons in the diesel range (TPH-d) at a maximum concentration of 1,400 milligrams per kilogram (mg/kg). Based on the results of this investigation, the Los Angeles County Department of Public Works (DPW) required additional soil borings in order to help determine the vertical and lateral extent of contamination. In August 2009, six (6) borings (B1 through B6) were completed in the vicinity of the product piping lines and UST to depths of 40 feet bgs. Results of the investigation indicated that no volatile organic compounds (VOCs), fuel oxygenates, or petroleum hydrocarbons were detected in four (4) of the six (6) borings. TPH-d was detected in one (1) boring (B3) at a depth of 5-feet bgs at a concentration of 60 mg/kg. According to the report, the boring was located approximately 10 to 12 feet from the original two (2) borings. Based on these results, LADPW required a remedial action plan to address the concentrations of TPH-d detected in soil samples. In February 2012, Advanced GeoEnvironmental, Inc. submitted a remedial action workplan. The workplan set a cleanup level of 200 mg/kg of TPH-d in soil. The

State Agencies	
Source	Comments
	workplan indicated that soils in the vicinity of the product piping and nearest borings where TPH-d was discovered, would be excavated and transported offsite. Confirmation soil samples would then be collected from the sidewalls and bottom of the excavation to confirm that clean-up levels were reached. Results of remedial activities were not found in any of the documents provided on the Geotracker website. However, on July 14, 2015, the Regional Water Quality Control Board issued a letter confirming the "completion of a site investigation and remedial action for the underground storage tanks (USTs) case formerly located" at the Property. The RWQCB issued a case-closed designation for the Property.
California Department of Conservation, Division of Oil, Gas and Geothermal Resources (DOGGR)	According the DOGGR database (http://maps.conservation.ca.gov/doms/doms-app.html), the Property is located in the Torrance Oil/Gas Field and a plugged oil & gas well (API: 0403718117) is located on Parcel 2 of the Property. The database indicated that the former operator of the well was Decalta International Corporation. The well is listed as "plugged & abandoned". According to production data, the well was producing from July of 1977 to October of 1989. By November of 1989, the well was no longer in production.

Local Agencies

Source	Comments
South Coast Air Quality Management District (SCAQMD)	The following records pertaining to the 514 N. Prospect Avenue were reviewed: • Permits to operate one (1) 9,972-gallon diesel fuel UST, one (1) 9,940-gallon diesel fuel UST, one (1) 6,000-gallon diesel fuel UST, and one (1) 350-gallon diesel fuel UST were issued in April 1990. All of the permits are listed as inactive. • Permits to operate three (3) diesel fuel electric generators were issued in May 1990. All three (3) permits are listed as inactive. • Permits for three (3) ethylene oxide hospital aerators were issued in 1990 and 1993. The permits are listed as inactive. • Permits to operate two (2) boilers were issued in January 1999. The permits are listed as inactive. • Permits to operate two (2) natural gas boilers were issued in October and November 2005. One (1) of the two (2) permits remains active. • Permits to operate three (3) natural gas boilers were issued at the Property in January 2010, Two (2) of the three (3) permits remain active. • One (1) permit for a natural gas boiler was issued in December 2014. The permit remains active. • In January 2003, and November 2013, notices of violations were issued for operating a boiler without a permit. The following records pertaining to 520 N. Prospect Avenue were reviewed: • One permit to operate a gasoline generator was

Source	Comments
	issued on September 4, 1990. • One permit to operate a non-selective catalytic reduction unit was issued on September 4, 1990. • No violations were issued.
Los Angeles County Sanitation Districts (LACSD)	The LACSD had several records pertaining to the Property address 514 N. Prospect Avenue. The following files were reviewed: • Wastewater Discharge Permit No. 9527 was issued to South Bay Hospital on December 7, 1982. The permit listed discharge sources as blow-down or bleed-down water from cooling towers, boilers, or evaporative coolers, domestic waste, and laboratory waste. • Temporary Wastewater Discharge Permit No. 14930 was issued at the Property based in a change of ownership. According to the permit records, the original permit (No. 9527) was discontinued in October 1998 occupancy changed to Little Company of Mary Health Services dba Beach Cities Ambulatory Care Center. As of the date of this report, the LACSD has not responded to our request for records for the remaining Property addresses.

Source	Comments
Los Angeles County, Department of Public Works (DPW)	The DPW website (http://ladpw.org/epd/CleanLA/OpenFileReview.aspx) was reviewed for information and indicated that the DPW only had files pertaining to the Property address 514 N. Prospect Avenue. The following files were reviewed: • October 12, 1999 - Carberry and Associates, Underground Storage Tank Removal and Closure Report, Southbay Medical Center, 514 N. Prospect Avenue, Redondo Beach. According to the report, four (4) USTs were present at the Property. The USTs were identified as fuel USTs for the back-up generators and included two (2) 10,000-gallon USTs, one (1) 6,000-gallon UST, and one (1) 350-gallon UST. According to the report, the two (2) 10,000-gallon USTs, and one (1) 350-gallon UST were removed from the Property. During the removal of the USTs, the existing 10,000-gallon double-walled fiberglass UST was installed in one (1) of the excavations. Because the 6,000-gallon UST was located near a sidewalk and building, and because utility lines were present above the UST, the 6,000-gallon UST was abandoned in place. A report describing activities surrounding the in-place abandonment was prepared under separate cover. Soil samples were collected from beneath all four (4) USTs at depths of approximately 2.0-feet beneath the UST inverts. The samples were analyzed for TPH-d, benzene, toluene, ethylbenzene, and xylenes (BTEX), and methyl-tertiary-butyl-ether (MTBE). The procedures and results of samples indicated that no concentrations of TPH-d, BTEX, or MTBE

Source	Comments
	were detected in any of the samples. Based on these findings, the DPW issued a closure certification for the three (3) removed USTs dated July 21, 2003. • July 9, 1999 - Carberry and Associates, Permanent Tank Closure Abandon In-Place, Bay Cities Health District, 514 N. Prospect Avenue, Redondo Beach. This report describes the abandonment in-place of the 6,000-gallon UST. In order to abandon the UST in-place, the UST was pumped of all residual fuel, and was cleared of all fuel vapors. Following certification that all was completed, the UST was pumped full of approximately 30 cubic yards of slurry material, covered with soil, and paved over. Prior to the abandonment, two (2) soil samples were collected from a depth of approximately 2.0-feet beneath the UST invert utilizing a hand-auger drilled at an angle from the sidewall of the excavation. In addition, two (2) soil borings were completed on either side of the UST to depths of 40-feet in accordance with DPW requirements to abandon in-place. Soil samples were collected at various intervals from the two (2) borings. All soil samples were analyzed for TPH-d, BTEX, and MTBE. According to the report, none of the samples contained detectable concentrations of TPH-d, BTEX, or MTBE. Based on these findings, the DPW issued a closure certification for the UST dated March 12, 2003. • Copies of the same files reviewed on the Geotracker database (see write-up above) were also reviewed. • Various inspection reports that identified

Source	Comments
	violations pertaining to incomplete record keeping, failure to maintain records, failure to update business plans, and failure to submit test results in a timely manner were reviewed. The violations were remedied. None of the violations appear to present an environmental risk. • In addition, various UST certification reports were reviewed. In areas where certain aspects of the UST system and product line sensors did not pass testing, the issues were remedied. No indications of violations pertaining to fuel loss were observed in the files reviewed.
Los Angeles County, Fire Department (HHMD)	There were no agency records pertaining to the Property on file with this agency.

6.0 PROPERTY RECONNAISSANCE

6.1 Methodology

On April 22, 2019, Converse visited the Property to evaluate present use and to identify observable environmental conditions at the Property. Our methodology involved walking the perimeters, center lines, and accessible interior areas of the buildings while noting observed evidence of present and potential environmental concerns.

A field-generated map is provided in Appendix B. Pertinent Property photographs are provided in Appendix C.

6.2 Limiting Conditions

Converse's findings are based on the Property conditions observed on Monday, April 22, 2019.

Converse was provided limited access to the building located on the Property. Converse was only provided access to a portion of the 3rd floor of the 514 N. Prospect building (former hospital building), the maintenance building, and parking garages.

6.3 Interior Observations of Property

During our Property visit, Converse made the following observations of the interior of the Property's building(s):

Table 3 – Interior Observations of Property

Item or Condition	Observed Evidence	No Evidence Observed	Comments
Hazardous Substances & Petroleum Products:	✓		Three (3) AC Delco back-up generators were observed in the maintenance building. The generators appeared to be plumbed to the UST on the west side of the building. In addition, various containers of cleaners, oils, and paints were observed in the storage closets in the maintenance building. No leaking or staining was observed.
Storage Tanks & Related Equipment:	✓		See above.
Odors:		✓	
Standing Surface Water or Other Pools of Liquid:		✓	
Drums & Other Containers of Hazardous Substances, Petroleum Products, or Other Unidentified Contents:	✓		See above.

Item or Condition	Observed Evidence	No Evidence Observed	Comments
Transformers or Equipment containing Polychlorinated Biphenyls (PCBs):	✓		One (1) transformer was observed in the interior of the maintenance building. No leaking or staining was observed.
Heating/Cooling System:	✓		HVAC vents were observed in the individual office spaces observed on the 3rd floor of the 514 N. Prospect Avenue building.
Stains or Corrosion on Floors, Walls or Ceilings:		✓	
Drains and Sumps		✓	

Additional Comments

6.4 Exterior Observations of Property

During our Property visit, Converse made the following observations of the exterior of the Property:

Table 4 – Exterior Observations of Property

Item or Condition	Observed Evidence	No Evidence Observed	Comments
Hazardous Substances & Petroleum Products:		✓	
Storage Tanks & Related Equipment:	✓		A concrete patch with fill ports, which was identified by the Property owner as the location of the 10,000-gallon UST, was observed in the parking area in the northern portion of Parcel 1.
Odors:		✓	
Standing Surface Water or Other Pools of Liquid:		✓	
Drums & Other Containers of Hazardous Substances, Petroleum Products, or Other Unidentified Contents:		✓	
Transformers or Equipment containing Polychlorinated Biphenyls (PCBs):	✓		Three (3) utility-owned pad-mounted transformers were observed on Parcel 1. No leaking or staining was observed.

Item or Condition	Observed Evidence	No Evidence Observed	Comments
Pits, Ponds, or Lagoons:		✓	
Stained Soil or Pavement:		✓	
Stressed Vegetation (other than from insufficient water):		✓	
Evidence of Mounds, Depressions or Filled or Graded Areas Suggesting Trash or Other Solid Waste Disposal:		✓	
Waste Water or any discharge (including storm water) into a Drain, Ditch, or Stream on or Adjacent to the Property:		✓	
Wells (active, inactive, or abandoned):		✓	
Septic Systems or Cesspools:		✓	

Item or Condition	Observed Evidence	No Evidence Observed	Comments
Prior Structures:		✓	
Roads, Tracks, Railroad Tracks or Spurs:		✓	A portion of Parcel 3 is developed with a part of Flagler Lane. The remainder of the parcel is vegetation covered hillside. The Property fronts onto N. Prospect Avenue to the south/southwest, and Beryl Street to the north.

6.5 Current Uses of Adjoining Properties

Based on our research and observations during our Property visit, the Property is bordered by the following:

Table 5 – Adjoining Property Use

Direction	Current Development
North:	Beryl Street followed by residential.
Northeast:	Intersection of Beryl Street and Flagler Lane followed by Dominguez Park (200 Flagler Lane).
Northwest:	Retail Shopping Center (1202-1262 Beryl Street), and Shell Service Station (1200 Beryl Street)
South:	North Prospect Avenue followed by residential.
Southeast:	Intersection of North Prospect Avenue and Flagler Lane followed by residential.

Direction	Current Development
Southwest:	North Prospect Avenue followed by residential.
East:	Flagler Lane followed by residential.
West:	North Prospect Avenue followed by residential.

6.6 Current Uses of Surrounding Area

Based on our research and observations during our Property visit, the surrounding area of the Property primarily consists of residential and commercial developments.

7.0 INTERVIEWS

Interview:	Comments:
Property Owner:	Mr. Leslie Dickey of Beach Cities Health District (Property Owner/Tenant) was interviewed. Mr. Dickey stated that the Property was originally developed as a hospital in the 1950s, and that it operated as a hospital for approximately 30 years. Mr. Dickey stated that the former hospital building is now occupied by medical office tenants. In addition to the former hospital building, two (2) additional medical office buildings have been constructed at the Property, and are currently being leased out to two private medical companies. Mr. Dickey stated that he was unaware of any environmental cleanups or agency directed actions relating to any contamination or unauthorized releases on the Property. Mr. Dickey stated that there is currently a UST on the Property that serves to fuel three (3) back-up generators. Mr. Dickey was unaware of the size of the generator, and stated that he was unaware of any unauthorized releases pertaining to the generator. Mr. Dickey also stated that an oil well formerly operated on Parcel 2 and that he believed it was abandoned in accordance with all applicable regulatory standards.
Tenant/ Occupant:	See Property Owner interview.
State or Local Government Officials:	Other than the information in Section 5.4, no additional information could be provided.
Owners and Occupants of Neighboring Sites:	No interviews of owners or occupants of neighboring sites were conducted.

8.0 FINDINGS

A cursory summary of findings is provided below. However, details were not included or fully developed in this section, and the report must be read in its entirety for a comprehensive understanding of the items contained herein.

- The Property is owned by Beach Cities Health District, and is developed with a former hospital building (currently a long-term care facility, and medical office space), two (2) medical office buildings, a maintenance building, and two (2) parking garages. A portion of the Property is vacant land.
- The Property appeared to be undeveloped as early as 1896. The Property was developed for agricultural use, including a pond in the center of Parcel 1, from as early as 1924 to 1941. Parcel 1 appeared vacant, and Parcel 2 appeared developed with a small pond in 1947. By 1951, the Property appeared partially graded, and by 1956 the Property appeared developed with a baseball field. By 1963, the Property appeared developed with the existing hospital building, Parcel 2 appeared vacant, and Parcel 3 was developed with a portion of the existing Flagler Lane. In 1976, the second medical office building (510 N. Prospect Avenue) was constructed. In 1989, the third medical office building was constructed.
- The following items were observed at the Property during the Property reconnaissance:
 - Three (3) AC Delco back-up generators were observed in the maintenance building. The generators appeared to be plumbed to the UST on the west side of the building. In addition, various containers of cleaners, oils, and paints were observed in the storage closets in the maintenance building. No leaking or staining was observed.
 - One (1) transformer was observed in the interior of the maintenance building. No leaking or staining was observed.
 - A concrete patch with fill ports, which was identified by the Property owner as the location of the 10,000-gallon UST, was observed in the parking area in the northern portion of Parcel 1.
 - Three (3) pad-mounted transformers were observed on Parcel 1. No leaking or staining was observed.
- The Property was identified in multiple databases in the regulatory database report based on the generation of hazardous wastes, the operation of USTs, various violations, various emissions, and for a "case-closed" LUST case.

- Various documents were reviewed at DPW that included reports documenting the removal of three (3) USTs, and the abandonment in-place of one (1) UST at the Property in 1999. According to the reports, soil samples were collected beneath the UST inverts, and in the case of the UST that was abandoned in-place, two (2) 40-foot soil borings were also completed. The results of all soil samples indicated that no detectable concentrations of TPH-d, BTEX, or MTBE were identified in any of the samples. Closure certifications for the UST removals and in-place abandonment were issued in July and March 2003, respectively.
- Various documents pertaining to a LUST case were reviewed using the Regional Water Quality Control Board's Geotracker database. According to the documents, soil samples collected in January 2008, during the replacement of product lines associated with the existing 10,000-gallon UST at the Property, indicated concentrations of TPH-d as high as 1,400 mg/kg. Based on these results the DPW required the completion of additional borings to delineate the vertical and lateral extent. In August 2008, six (6) borings were completed to depths of 40-feet bgs. TPH-d was detected in one (1) sample at a depth of 5.0-feet bgs at a concentration of 60 mg/kg. Based on the data generated during the course of the subsurface investigations, DPW required the implementation of a remedial action plan to remove the soils where contamination was identified. Although Converse was not able to locate any records describing the completed soil-excavation activities and confirmation soil sampling, the DPW transferred the case to the RWQCB which issued a "case-closed" designation for the LUST case in July 2015.
- Various permits for the operation of boilers, USTs, diesel-powered electric generators, and aerators were identified on the SCAQMD's FINDs database.
- According to the DOGGR database (<http://maps.conservation.ca.gov/doms/doms-app.html>), the Property is located in the Torrance Oil/Gas Field and a plugged and abandoned oil & gas well (API: 0403718117) is located on Parcel 2 of the Property. The database indicated that the former operator of the well was Decalta International Corporation. The well is listed as "plugged & abandoned". According to production data, the well was producing from July of 1977 to October of 1989. By November of 1989, the well was no longer in production.
- The following adjoining properties were identified in the regulatory database report:
 - 1400 Beryl Street - The Property is located northeast of the Property, across the intersection of Beryl Street and Flagler Lane. The site is listed in various databases as a landfill property that operated from 1904 to 1967. The facility was listed as accepting "inert; residential" wastes. The facility is currently listed as "closed" and is listed as being developed with Dominguez Park. The site is listed in the Cleanup Sites and LDS databases as a landfill disposal site that underwent cleanup

beginning in January 1989. The facility was issued a "completed-case closed" designation on October 1, 2012.

- 1232 Beryl Street - A dry cleaner site is listed in the northwestern adjoining shopping center that is located approximately 20 feet lower in elevation from the Property. Coury & Son Cleaners was listed in various databases in the report for the various violations related to failures to maintain an active EPA Identification number, and failure to prepare a business plan when handling hazardous materials. The site is listed as a drycleaners in the Federal Drycleaners database. The facility appeared to have operated at the site from as early as 1990 to 2018.
- 1200 Beryl Street - The site is located at the southwest corner of the northwestern adjoining shopping center (approximately 260 feet from the Property). This site is also located approximately 20 feet lower in elevation than the Property. The site is listed in the report for various violations related to improper paperwork, improper monitoring, failure to maintain copies of relevant permits/plans onsite, failure to maintain an approved response plan, failure to submit test results within 30 days of testing date, and failure to maintain a complete plot plan. All of these violations were returned to compliance. The site is listed in various other databases based on the operation of USTs, and the use of hazardous materials. The site is listed in the LUST database for an unauthorized release that was discovered at the site in 2004. According to the database, the potential contaminant of concern was gasoline. The site was issued a "closure-no further action" letter on April 12, 2012.
- Multiple other retail store/grocery store listings from within the shopping center were identified in the report for the generation of small quantities of hazardous wastes. No evidence suggesting any unauthorized releases were identified in the report.

9.0 OPINION

- The historical agricultural operations on the Property are not considered a REC as the Property has since been graded and redeveloped.
- The existing medical office operations (Parcel 1), vacant land use (Parcel 2), and portion of Flagler Lane (Parcel 3) are not considered a RECs.
- The Property received closure letters for the four (4) former USTs in 2003, and the LUST case in 2013. The current operation of 10,000-gallon diesel fuel UST at the Property is considered an environmental concern that does not rise to the level of a REC.
- The identification of various utility-owned pad-mounted transformers, three (3) diesel-fueled electric generators, and various quantities of cleaners, oils, and paints at the Property are not considered RECs as no leaking or staining was observed and good housekeeping measures were observed.
- The location of the Property within the Torrance Oil Field, and the presence of an abandoned oil-well on Parcel 2 are considered an environmental concern that does not rise to the level of a REC. Concern for past impacts from well installation and need for re-abandonment for future development are a concern
- Based on the regulatory status of the northwestern adjoining Shell Service Station (1200 Beryl Street) and the former landfill (Dominguez Park - 200 Flagler Lane), these sites are considered an environmental concern that do not rise to the level of a REC.
- Based on the lack of information suggesting an unauthorized release at the former drycleaners on the northwestern adjoining property (1232 Beryl Street), and the significant difference in elevation (20 feet) between the Property and former drycleaners, the site is considered an environmental concern for soil and soil vapor impacts that does not rise to the level of a REC.
- The remaining adjoining properties listed in the database are not considered RECs based on the types of listings and lack of information suggesting potential environmental concerns for the Property.
- No significant data gaps were identified during this assessment that affect the ability of the Environmental Professional (EP) to identify RECs.
- There are no unusual circumstances where greater certainty is required regarding RECs.

10.0 CONCLUSIONS AND RECOMMENDATIONS

Converse has performed a Phase I Environmental Site Assessment in general conformance with the scope and limitations of ASTM Practice E1527-13 for 514 North Prospect Avenue, City of Redondo Beach, Los Angeles County, California. Any exceptions to or deletions from this practice are described in the Limitations and Exceptions of Assessment section of this report. This assessment has revealed no evidence of recognized environmental conditions in connection with the Property.

The following on-site environmental concerns that do not rise to the level of a REC were noted:

- The 10,000-gallon diesel-fuel UST currently operating at the Property.
- The location of the Property within the Torrance Oil Field, and the presence of an abandoned oil well on Parcel 2.

The following adjoining and adjacent environmental concerns were also noted:

- The current operation of a Shell Service Station on the northwestern adjoining property (1200 Beryl Street).
- The former dry cleaners that operated at the northwestern adjoining property (1232 Beryl Street).
- The former landfill located on northeastern adjoining property (200 Flagler Lane).

11.0 DEVIATIONS AND LIMITATIONS

The following limitations and exceptions were encountered during the course of this assessment:

- Converse was not able to interview any of the onsite tenants, with the exception of a Property owner representative who maintains office space at the Property.
- Converse was only provided limited access to the former hospital building (514 N. Prospect Avenue), and was not provided access to either of the medical office buildings (510 and 520 N. Prospect Avenue).
- As of the date of this report, Converse has not received a response to our request for records for Property addresses 510 and 520 N. Prospect Avenue from the DTSC and LACSD.

These are not deemed significant based on the known uses of the medical office buildings.

12.0 ADDITIONAL NON-SCOPE SERVICES

There are environmental issues outside the scope of the ASTM E1527-13 that can be assessed in connection with a commercial real estate transaction. These are dealt with as non-scope considerations since they do not typically present a Superfund Liability. The specific level of inquiry (if any) is defined in the Proposal which contains a Scope of Work. These non-scope services are very client specific and not covered by the ASTM standard. They are frequently related to the business environmental risk which is defined in the standard as “risk which can have a material environmental or environmentally-driven impact on the business associated with the current or planned use of a parcel of commercial real estate...”

No non-scope issues were addressed in this report.

13.0 SIGNATURE OF ENVIRONMENTAL PROFESSIONAL

I declare that, to the best of my professional knowledge and belief, I meet the definition of Environmental Professional as defined in §312.10 of 40 CFR 312.

I have the specific qualifications based on education, training and experience to assess a property of the nature, history, and setting of the subject property. I have developed and performed the all appropriate inquiries in conformance with the standard and practices set forth in 40 CFR Part 312.

Spencer Wagner
Senior Staff Environmental Scientist

This Phase I ESA was completed by the above Environmental Professional. A complete list of preparers, and their responsibilities for this assessment, is provided in the following section (Section 14.0, List of Preparers).

14.0 LIST OF PREPARERS

Norman S. Eke

Senior Vice President/Managing Officer

B.A., Liberal Studies, Environmental Studies Emphasis, University of California, Santa Barbara, 1988.

Cal/OSHA Certified Asbestos Consultant, #96-2093

NIOSH 582 Equivalent Training

Senior Vice President and Managing Officer of Converse's California Environmental offices. Mr. Eke has served as the Principal-in-Charge and Contract Administrator to deliver services to our public agency and private clients. Mr. Eke has 29 years of experience in the fields of Environmental Due Diligence including Phase I and Phase II Environmental Site Assessments, Asbestos surveys/specifications/abatement monitoring, Preliminary Endangerment Assessments and associated Supplemental Site Investigations and Removal Action Work Plans/Implementation, various forms of Remediation, Human Health Risk Assessment and Indoor Air Quality. Mr. Eke is the former Subcommittee Chairman for E.50-02 Real Assessment and Management of the ASTM E.50 Committee on Environmental Assessment, Risk Management, Corrective Action, which includes Phase I ESA standards (2008 to 2016).

Principal area of responsibility for this ESA report: Project Management, Client Point of Contact, and Quality Assurance/Quality Control and Technical Review.

Spencer Wagner

Senior Staff Environmental Scientist

B.A., Environmental Science and Policy, California State University, Long Beach, 2006

B.A., Geography, California State University, Long Beach, 2006

40-Hour HAZWOPER Certified

Certified Wood Destroying Organism (WDO) Inspector

Mr. Wagner has over 9 years' experience conducting Phase I and II Environmental Site Assessments throughout California. Mr. Wagner has completed Phase I ESAs on undeveloped land, residential properties, commercial/retail facilities, industrial facilities, and school sites. His Phase II ESA experience includes collection of soil matrix, soil vapor, indoor air and groundwater samples. Phase II projects worked on have included

residential properties, commercial warehousing sites, school sites, dry cleaning facilities, automotive service sites, metal plating facilities and multi-tenant commercial properties.

Principal area of responsibility for this ESA report: , Historical Research, Regulatory Agency Interaction, Property Reconnaissance, Interviews, and Report Generation.

RE: CITY DIRECTORY RESEARCH
Beach Cities Health Dist/N Prospect Avenue
514 North Prospect Avenue Redondo Beach, CA

Thank you for contacting ERS for an City Directory Search for the site described above. Our staff has conducted a reverse listing City Directory search to determine prior occupants of the subject site and adjacent properties. We have provided the nearest addresses(s) when adjacent addresses are not listed. If we have searched a range of addresses, all addresses in that range found in the Directory are included.

Note: Reverse Listing Directories generally are focused on more highly developed areas. Newly developed areas may be covered in the more recent years, but the older directories will tend to cover only the "central" parts of the city. To complete the search, we have either utilized the ACPL, Library of Congress, State Archives, and/or a regional library or history center as well as multiple digitized directories. These do not claim to be a complete collection of all reverse listing city directories produced.

ERIS has made every effort to provide accurate and complete information but shall not be held liable for missing, incomplete or inaccurate information. To complete this search we used the general range(s) below to search for relevant findings. If you believe there are additional addresses or streets that require searching please contact us at 866-517-5204.

Search Criteria:

450-625 of North Prospect Avenue

100-200 of Flagler Lane

Notice: IMPORTANT LIMITATIONS and YOUR LIABILITY

Reliance on information in Report: This report DOES NOT replace a full Phase I Environmental Site Assessment but is solely intended to be used as database review of environmental records.

License for use of information in Report: No page of this report can be used without this cover page, this notice and the project property identifier. The information in Report(s) may not be modified or re-sold.

Your Liability for misuse: Using this Service and/or its reports in a manner contrary to this Notice or your agreement will be in breach of copyright and contract and ERIS may obtain damages for such mis-use, including damages caused to third parties, and gives ERIS the right to terminate your account, rescind your license to any previous reports and to bar you from future use of the Service.

No warranty of Accuracy or Liability for ERIS: The information contained in this report has been produced by ERIS Information Inc. ("ERIS") using various sources of information, including information provided by Federal and State government departments. The report applies only to the address and up to the date specified on the cover of this report, and any alterations or deviation from this description will require a new report. This report and the data contained herein does not purport to be and does not constitute a guarantee of the accuracy of the information contained herein and does not constitute a legal opinion nor medical advice. Although ERIS has endeavored to present you with information that is accurate, ERIS disclaims, any and all liability for any errors, omissions, or inaccuracies in such information and data, whether attributable to inadvertence, negligence or otherwise, and for any consequences arising therefrom. Liability on the part of ERIS is limited to the monetary value paid for this report.

Trademark and Copyright: You may not use the ERIS trademarks or attribute any work to ERIS other than as outlined above. This Service and Report(s) are protected by copyright owned by ERIS Information Inc. Copyright in data used in the Service or Report(s) (the "Data") is owned by ERIS or its licensors. The Service, Report(s) and Data may not be copied or reproduced in whole or in any substantial part without prior written consent of ERIS.

Executive Summary

Property Information:

Project Property: *Beach Cities Health Dist/N Prospect Avenue
514 North Prospect Avenue Redondo Beach CA 90277*

Project No: *18-41-296-01*

Coordinates:

Latitude:	<i>33.853342</i>
Longitude:	<i>-118.378957</i>
UTM Northing:	<i>3,746,750.25</i>
UTM Easting:	<i>372,433.21</i>
UTM Zone:	<i>UTM Zone 11S</i>

Elevation: *169 FT*

Order Information:

Order No: *20190401203*

Date Requested: *April 1, 2019*

Failure to comply with one or more of the following overfill prevention equipment requirements:
 Alert the transfer operator when the tank is 90 percent full by restricting the flow into the tank or triggering an audible and visual alarm; or
 Restrict delivery of flow to the tank at least 30 minutes before the tank overfills, provided the restriction occurs when the tank is filled to no more than 95 percent of capacity; and activate an audible alarm at least five minutes before the tank overfills; or
 Provide positive shut-off of flow to the tank when the tank is filled to no more than 95 percent of capacity; or
 Provide positive shut-off of flow to the tank so that none of the fittings located on the top of the tank are exposed to product due to overfilling.

Install/retrofit overfill prevention equipment that does not use flow restrictors on vent piping to meet overfill prevention equipment requirements when the overfill prevention equipment is installed, repaired, or replaced on and after October 1, 2018.

For USTs installed before October 1, 2018, perform an inspection by October 13, 2018 and every 36 months thereafter.

For USTs installed on and after October 1, 2018, perform an inspection at installation and every 36 months thereafter.

Inspected within 30 days after a repair to the overfill prevention equipment.

Inspected using an applicable manufacturer guidelines, industry codes, engineering standards, or a method approved by a professional engineer.

Inspected by a certified UST service technician.

Maintain records of overfill prevention equipment inspection for 36 months.

Violations

Violation Date: 10/02/2015
Violation Program: UST
Violation Source: CERS
Violation Division: Los Angeles County Department of Public Works

Citation: HSC 6.7 25286(a) - California Health and Safety Code, Chapter 6.7, Section(s) 25286(a)

Site History:						
This site is defined as the Off-Site Properties ("Site") of the Redondo Beach Police Department Firing Range property. The Firing Range property is enclosed within a City owned and operated Service Yard which occupies approximately 2.5 acres of land, bordered by Beryl Street on the south and east and Dominguez Park on the west and north. The construction of the Firing Range is a combination of cinder block walls augmented with a series of heavy timber baffles and cross bracing. The Firing Range was reportedly established in approximately 1947 and at various times has been opened to the public and local gun clubs for target practice and firearms safety training classes. The Off-Site Properties are all located in Torrance, California 90503 and consist of the following: 19215 Ronald (A.P.N. 7520-003-004), 19213 Ronald (A.P.N. 7520-003-005), 19209 Ronald (A.P.N. 7520-003-007), 19205 Ronald (A.P.N. 7520-003-009), 19203 Ronald (A.P.N. 7520-003-010), 19202 Ronald (A.P.N. 7520-007-011), 5522 Arvada (A.P.N. 7520-007-008), 5511 Arvada (A.P.N. 7520-004-009), 5501 Arvada (A.P.N. 7520-004-014), 5401 Arvada (A.P.N. 7520-005-012), 5512 Arvada (A.P.N. 7520-007-003), 5518 Towers (A.P.N. 7520-011-009), 5406 Towers (A.P.N. 7520-012-014). The Los Angeles County Assessor's Parcel Number for the Redondo Beach Police Department Firing Range property under the oversight of DTSC is 7520-001-902.

Violations

Violation Date:	09/18/2017	Violation Source:	CERS
Violation Program:	HW	Violation Division:	Los Angeles County Fire Department
Citation:	22 CCR 12 66262.12 - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.12		
Violation Notes:			

OBSERVATION: The generator has not obtained an active EPA ID number to manage hazardous waste. A hazardous waste generator shall not treat, store, dispose of, transport or offer for transportation, hazardous waste without an active EPA ID number. CORRECTIVE ACTION: Submit documentation to the CUPA demonstrating that you have obtained an EPA ID number. EPA ID #CAL000217319; Note: data in [Violation Notes] field for some records is truncated from the source.

Violation Description:

Failure to obtain an Identification Number prior to treating, storing, disposing of, transporting or offering for transportation any hazardous waste.

Violations

Violation Date:	09/18/2017	Violation Source:	CERS
Violation Program:	HMRRP	Violation Division:	Los Angeles County Fire Department
Citation:	HSC 6.95 25508(a)(1) - California Health and Safety Code, Chapter 6.95, Section(s) 25508(a)(1)		
Violation Notes:			

OBSERVATION: The business failed to complete and electronically submit a business plan when handling hazardous materials at or above the reportable threshold quantities. CORRECTIVE ACTION: Complete and electronically submit a business plan. CERS ID Number 10300282; Note: data in [Violation Notes] field for some records is truncated from the source.

Violation Description:

Failure to complete and electronically submit a business plan when storing/handling a hazardous material at or above reportable quantities.

Violations

Violation Date:	07/09/2015	Violation Source:	CERS
Violation Program:	HW	Violation Division:	Los Angeles County Fire Department
Citation:	22 CCR 12 66262.12 - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.12		
Violation Notes:			

Returned to compliance on 09/18/2017. OBSERVATION: This facility does not have a valid EPA ID number (CAL000217319) to manage hazardous waste. A hazardous waste generator shall not treat, store, dispose of, transport or offer for transportation, hazardous waste without an EPA ID number. CORRECTIVE ACTION: Immediately obtain an EPA ID number through DTSC to manage hazardous waste and submit evidence to the CUPA by 8/815.; Note: data in [Violation Notes] field for some records is truncated from the source.

Violation Description:

Failure to obtain and/or maintain an Active EPA ID.

Site History:

The Redondo Beach Police Shooting Range is located in the Parks and Recreation Maintenance Yard within a predominantly residential area. The Range is currently used as a training facility for police officers and has been located in its present location since 1947. According to observations made by DTSC, the Range is an outdoor facility partially enclosed by 20 foot wooden retaining walls and spaced wooden baffles on top. The Range is bordered to the north and west by Dominguez Park. The portion of this park located north of the Range is utilized by the public as a dog park. This park sits on a mesa elevated above the level of the Range. A park and recreation yard for the City of Redondo Beach is located adjacent to the Range on the north side of Beryl Street. The Towers Elementary School in the City of Torrance is located immediately south of the Range across Beryl Street. The school was built in 1953. Areas east of the Range and beyond the School are comprised of predominantly single and multi family residences. DTSC conducted the field oversight and final inspection of removal action activities as part of a response to DTSC and community concerns regarding lead fragments that have affected the Towers Elementary School (Towers ES) from the nearby City of Redondo Beach Police Firing Range, located directly north of Towers ES in the City of Redondo Beach, California. The cleanup of lead fragments was conducted in accordance with a DTSC approved Removal Action Workplan (RAW). RAW activities were conducted by Turner/Maclane Environmental Consultants on behalf of the City of Redondo Beach. The approved RAW activities were conducted from August 31, 2010 to September 3, 2010. On August, 31, 2010, DTSC staff and Turner/Maclane representatives conducted a site survey of Towers ES to define the areas where cleanup activities would occur. Based on the site survey, an agreement was reached to thoroughly clean the roof tops, awning systems, rain gutters, downspouts, walkways, storm drains, hardscape play areas and parking lots. Removal action activities were generally conducted in accordance with the DTSC approved RAW. Although a total of 91 lead fragments were discovered during DTSC's final inspection of building rooftops, removal of lead fragments from the rooftops, awnings, rain gutters, downspouts, storm drains, walkways and hardscape areas (within the lead fragment trajectory range) at Towers ES were completed to the satisfaction of DTSC.

Status: NO FURTHER ACTION
Program Type: SCHOOL CLEANUP

Document Type: Technical Workplan
Date Completed: 9/1/2008
Comments: Removal Action Workplan was prepared to address the immediate concerns expressed by the DTSC and the School District. The City of Redondo Beach has requested that an immediate removal action is required to eliminate the residual lead fragments from the school property including all hardscape areas, rooftops, landscaped areas and playgrounds. Work is to be implemented prior to opening of school for regular classes on 9/4/2008.

Date Completed:		4/18/2008				
Comments:		Lead wipe samples collected by the City of Redondo Beach (Ellis Environmental - consultant) at different locations at the Range and surrounding area. 11 samples were collected and analyzed for lead. Results showed sipe samples near the target area (Range) had high lead content (170,000 mg/s.f.), then dropped quickly as distance from the target area increased, averaging 395 mg/s.f. at other locations inside the range. Outside the range but within the city yard, results averaged 137 ug/s.f. Two samples were collected across the street, near the school lot which averaged 87 mg/s.f.

Document Type:		Technical Workplan				
Date Completed:		9/3/2010				
Comments:		RAW activities under DTSC oversight included thoroughly cleaning of debris and lead fragments from all the roof tops, awning systems, rain gutters, downspouts, walkways, storm drains, hardscape play areas and parking lots. Confirmation of lead fragment removal from all hard surfaces within Towers ES consisted of a visual inspection of these surfaces along with photographic records for all surfaces. For the visual inspection, each area was inspected in approximately 3 to 5 foot by 3 to 5 foot grids.

Area Name:						
Area Link:						
Sub Area:						
Sub Area Link:						
Document Type:		Other Report				
Date Completed:		8/27/2008				
Comments:		Report finalized by DTSC Schools unit and made available for public review. The report presents investigation activities conducted by Mr. Christopher Frost from DTSC Schools' team and Mr. Roger Kints from the EERP at the Towers Elementary School and surrounding area.				
		Following analysis of the collected samples, elevated levels of arsenic, cadmium, lead and antimony were identified in 3 samples collected from the northern portion of the school.				
		The Report concludes that there's no immediate threat to human health and immediate action is not required; however, due to the elevated concentrations of certain metals in several samples and fragments observed in the areas that were investigated, additional characterization and possible remediation of the areas surrounding the Range will be necessary. Particular attention should be focused on areas covered with surface vegetation. These areas present a potential data gap as these surface coverings make the observation of fragments likely present in many areas, based on the observation of fragments in nearby areas without such cover.				
		Further action is needed to characterize the sand in the sand box at the Towers Elementary School for purpose of disposal and evaluate the willingness and ability of the City of Redondo Beach to ensure no future bullet fragments will impact the school, park and nearby houses.				
Title:		Sampling Activities				
Title Link:						
Area Name:						
Area Link:						
Sub Area:						
Sub Area Link:						
Document Type:		Fieldwork				
Date Completed:		5/1/2008				
Comments:		DTSC staff collected samples from areas surrounding the Redondo Beach Firing Range, samples were analyzed for metals. This was in effort to determine whether or not the levels of lead pose any immediate health concerns. A total of 88 XRF readings were taken (19 in the park, 60 at the school and 9 along Beryl Street) and 30 soil/sand samples were collected (4 in the park, 21 at the school and 5 along Beryl Street). The only lead detection that was significantly elevated above the DTSC screening level was one of the two sand samples collected in the kindergarten sandbox. The result was 6,900 mg/kg.				
		A total of 226 ammunition fragments were found and collected from the school area, nearby Beryl Street and the Dominguez park area.

Site History:

This site is defined as the Off-Site Properties ("Site") of the Redondo Beach Police Department Firing Range property. The Firing Range property is enclosed within a City owned and operated Service Yard which occupies approximately 2.5 acres of land, bordered by Beryl Street on the south and east and Dominguez Park on the west and north. The construction of the Firing Range is a combination of cinder block walls augmented with a series of heavy timber baffles and cross bracing. The Firing Range was reportedly established in approximately 1947 and at various times has been opened to the public and local gun clubs for target practice and firearms safety training classes.

Map Key	Number of Records	Direction	Distance (mi/ft)	Elev/Diff (ft)	Site	DB

The Off-Site Properties are all located in Torrance, California 90503 and consist of the following:

19215 Ronald (A.P.N. 7520-003-004), 19213 Ronald (A.P.N. 7520-003-005), 19209 Ronald (A.P.N. 7520-003-007), 19205 Ronald (A.P.N. 7520-003-009), 19203 Ronald (A.P.N. 7520-003-010), 19202 Ronald (A.P.N. 7520-007-011), 5522 Arvada (A.P.N. 7520-007-008), 5511 Arvada (A.P.N. 7520-004-009), 5501 Arvada (A.P.N. 7520-004-014), 5401 Arvada (A.P.N. 7520-005-012), 5512 Arvada (A.P.N. 7520-007-003), 5518 Towers (A.P.N. 7520-011-009), 5406 Towers (A.P.N. 7520-012-014). The Los Angeles County Assessor's Parcel Number for the Redondo Beach Police Department Firing Range property under the oversight of DTSC is 7520-001-902.

POLYCHLORINATED BIPHENYLS (PCBS), TOTAL CHROMIUM (1:6 RATIO CR VI:CR III), VANADIUM AND COMPOUNDS						
Site History:						
In 1996, SCE implemented a water quality monitoring program in response to a final judgment pursuant to a Stipulation, from the Superior Court of California, LA County, Number 121219 on 02/01/1995. The Stipulation alleged that Edison had stored hazardous wastes in non-permitted wastewater retention basins at their electrical generating stations in southern CA. Edison agreed to clean close the basins according to Chapter 15 of Title 22, CCR. The remainder of the property will be evaluated under corrective action. When the site was sold, the new owner AES agreed to take over all responsibilities, this includes closure of the basins, gw monitoring and corrective action. As of 5-17-2017: Corrective Action Consent Agreement has been signed; investigation to determine extent of clean up to commence by May 30, 2017 The RBGS site (Site) is located on the north end of Redondo Beach immediately inland (to the east) from the King Harbor Marine area and the Pacific Ocean. It consists of seven parcels of land occupying 51 acres. The facility is adjacent to hotels, residential property, and Beryl Street on the south, and Herondo Street and commercial/residential property on the north. The property's eastern boundary backs onto Pacific Avenue and Catalina Avenue, which consists of commercial, light industrial, and residential properties. Prior to the residential development in the 1950s, the area north and east of the RBGS was primarily an oil well field. The RBGS has operated as an electrical power plant since the mid-1940s, and has been operated by AES since 1998. The RBGS as it is currently configured includes eight natural- gas- powered electrical power generating units grouped into three powerblocks: - Inactive Units 1 through 4 (taken out of service in 1999). - Active Units 5 and 6. - Active Units 7 and 8. In general, the layout and locations of the major features at the facility are as follows: - Demineralizer Sump: Located in the central portion of Site between powerblock Unit 5 and Former AST No. 2. - Basins: - o The North Retention Basin (NRB) is located in the northeast corner (out of service). - o The South Retention Basin (SRB) is located in the middle section, - o The Boiler Chemical Cleaning Basin (BCCB; out of service) is located in the northwest portion of the Site, immediately west of the NRB. - o Five former aboveground storage tank (AST) basins are located along the eastern portion of the Site and sequenced in order from No. 1 (northernmost) to No. 5 (southernmost). - Powerblocks: Occupy the western portion of the Site adjacent to Harbor Boulevard, with: - o Units 1 through 4 located in the northwest, - o Units 5 and 6 located in the central-west, - o Units 7 and 8 located in the southwest. - Switchyards: - o The 220-kV Switchyard is located in the northeast portion of the Site between the NRB and former AST No. 1. - o The 66-kV Switchyard is located in the northwest portion of the Site immediately - Former east Underground of powerblock Storage Units Tank through (UST) Area 4. : Two areas, with one located in the north central portion of the Site adjacent to the BCCB and another located northeast of the administration building.						
REGULATORY HISTORY						
- In 1996, SCE implemented a Water Quality Monitoring Program under the oversight of DTSC's Permitting Branch. Beginning in December 1996, monitoring, and sampling were conducted in accordance with the project Sampling and Analysis Plan (SAP), dated April 1996. These monitoring events were regarded as the Detection Monitoring phase under the RCRA closure process for the basins at the Site. - In 1998, DTSC directed SCE to begin the Evaluation Monitoring phase of the groundwater investigation. Part of the Evaluation Monitoring phase is the analytical testing of groundwater samples for the constituents listed in Appendix DC of Chapter 14 (CCR Title 22). The first sampling of the Appendix IX list of compounds was performed by SCE during the September 1999 event. - AES took ownership of the property in 1998 and is not a responsible party to the 1995 Final Judgment. In September 2016, AES agreed to enter into a CACA to continue with the closure activities at the RBGS. As of 7-12-2018: A RCRA facility assessment has been conditionally approved for the facility.

Facility Description / History: Southern California Edison facilities are located in Los Angeles County. In the 1980s, the facilities generated and then stored hazardous waste in surface impoundments.						
Permitting Regulatory Description / History: Southern California Edison facilities applied for a RCRA Permit. However, DTSC did not issue the facilities a permit and were exempted from Hazardous Waste RCRA Permit fee requirements. The facilities were then granted an Interim Status documented on March 30, 1981. Then granted a Variance Status on January 29, 1987, valid for 180 days, allowing the facility to perform on-site treatment for their liquid hazardous waste.						
On February 1, 1995, a Final Judgement Pursuant to Stipulation, court order No. BC121219, was issued to close the Southern California Edison facilities: Alamitos, Cool Water, El Segundo, Etiwanda, Huntington Beach, Highgrove, Long Beach, Mandalay, Ormond Beach, Redondo Beach, and San Bernardino. The facilities had violated Hazardous Waste Laws and received cost penalties.						
In response to the court order, the Southern California Edison (SCE) performed the investigation and activities to close two wastewater retention basins that had operated without a permit or other form of authorization from the DTSC. The facilities were passed onto Corrective Action for closure. EPTC - Redondo is still undergoing closure. The Corrective Action Consent Agreement was signed September 8, 2016.

Permitting Regulatory Description / History:
Southern California Edison facilities applied for a RCRA Permit. However, DTSC did not issue the facilities a permit and were exempted from Hazardous Waste RCRA Permit fee requirements. The facilities were then granted an Interim Status documented on March 30, 1981. Then granted a Variance Status on January 29, 1987, valid for 180 days, allowing the facility to perform on-site treatment for their liquid hazardous waste.

On February 1, 1995, a Final Judgement Pursuant to Stipulation, court order No. BC121219, was issued to close the Southern California Edison facilities: Alamitos, Cool Water, El Segundo, Etiwanda, Huntington Beach, Highgrove, Long Beach, Mandalay, Ormond Beach, Redondo Beach, and San Bernardino. The facilities had violated Hazardous Waste Laws and received cost penalties.

In response to the court order, the Southern California Edison (SCE) performed the investigation and activities to close two wastewater retention basins that had operated without a permit or other form of authorization from the DTSC. The facilities were passed onto Corrective Action for closure. EPTC - Redondo is still undergoing closure. The Corrective Action Consent Agreement was signed September 8, 2016.

Status: UNDERGOING CLOSURE
Program Type: HAZ WASTE - RCRA

Appendix: Database Descriptions

Environmental Risk Information Services (ERIS) can search the following databases. The extent of historical information varies with each database and current information is determined by what is publicly available to ERIS at the time of update. ERIS updates databases as set out in ASTM Standard E1527-13, Section 8.1.8 Sources of Standard Source Information:

"Government information from nongovernmental sources may be considered current if the source updates the information at least every 90 days, or, for information that is updated less frequently than quarterly by the government agency, within 90 days of the date the government agency makes the information available to the public."

Standard Environmental Record Sources

Federal

National Priority List:

NPL

National Priorities List (Superfund)-NPL: EPA's (United States Environmental Protection Agency) list of the most serious uncontrolled or abandoned hazardous waste sites identified for possible long-term remedial action under the Superfund program. The NPL, which EPA is required to update at least once a year, is based primarily on the score a site receives from EPA's Hazard Ranking System. A site must be on the NPL to receive money from the Superfund Trust Fund for remedial action.

Government Publication Date: Feb 6, 2019

National Priority List - Proposed:

PROPOSED NPL

Includes sites proposed (by the EPA, the state, or concerned citizens) for addition to the NPL due to contamination by hazardous waste and identified by the Environmental Protection Agency (EPA) as a candidate for cleanup because it poses a risk to human health and/or the environment.

Government Publication Date: Feb 6, 2019

Deleted NPL:

DELETED NPL

The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) establishes the criteria that the EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425.(e), sites may be deleted from the NPL where no further response is appropriate.

Government Publication Date: Feb 6, 2019

SEMS List 8R Active Site Inventory:

SEMS

The Superfund Program has deployed the Superfund Enterprise Management System (SEMS), which integrates multiple legacy systems into a comprehensive tracking and reporting tool. This inventory contains active sites evaluated by the Superfund program that are either proposed to be or are on the National Priorities List (NPL) as well as sites that are in the screening and assessment phase for possible inclusion on the NPL. The Active Site Inventory Report displays site and location information at active SEMS sites. An active site is one at which site assessment, removal, remedial, enforcement, cost recovery, or oversight activities are being planned or conducted.

Government Publication Date: Feb 6, 2019

Inventory of Open Dumps, June 1985:

ODI

The Resource Conservation and Recovery Act (RCRA) provides for publication of an inventory of open dumps. The Act defines "open dumps" as facilities which do not comply with EPA's "Criteria for Classification of Solid Waste Disposal Facilities and Practices" (40 CFR 257).

Government Publication Date: Jun 1985

SEMS List 8R Archive Sites:

SEMS ARCHIVE

The Superfund Enterprise Management System (SEMS) Archived Site Inventory displays site and location information at sites archived from SEMS. An archived site is one at which EPA has determined that assessment has been completed and no further remedial action is planned under the Superfund program at this time.

Government Publication Date: Feb 6, 2019

Comprehensive Environmental Response, Compensation and Liability Information System -

CERCLIS

CERCLIS:

Superfund is a program administered by the United States Environmental Protection Agency (EPA) to locate, investigate, and clean up the worst hazardous waste sites throughout the United States. CERCLIS is a database of potential and confirmed hazardous waste sites at which the EPA Superfund program has some involvement. It contains sites that are either proposed to be or are on the National Priorities List (NPL) as well as sites that are in the screening and assessment phase for possible inclusion on the NPL. The EPA administers the Superfund program in cooperation with individual states and tribal governments; this database is made available by the EPA.

Government Publication Date: Oct 25, 2013

EPA Report on the Status of Open Dumps on Indian Lands:

IODI

Public Law 103-399, The Indian Lands Open Dump Cleanup Act of 1994, enacted October 22, 1994, identified congressional concerns that solid waste open dump sites located on American Indian or Alaska Native (AI/AN) lands threaten the health and safety of residents of those lands and contiguous areas. The purpose of the Act is to identify the location of open dumps on Indian lands, assess the relative health and environment hazards posed by those sites, and provide financial and technical assistance to Indian tribal governments to close such dumps in compliance with Federal standards and regulations or standards promulgated by Indian Tribal governments or Alaska Native entities.

Government Publication Date: Dec 31, 1998

CERCLIS - No Further Remedial Action Planned:

CERCLIS NFRAP

An archived site is one at which EPA has determined that assessment has been completed and no further remedial action is planned under the Superfund program at this time. The Archive designation means that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list this site on the National Priorities List (NPL). This decision does not necessarily mean that there is no hazard associated with a given site; it only means that, based upon available information, the location is not judged to be a potential NPL site.

Government Publication Date: Oct 25, 2013

CERCLIS Liens:

CERCLIS LIENS

A Federal Superfund lien exists at any property where EPA has incurred Superfund costs to address contamination ("Superfund site") and has provided notice of liability to the property owner. A Federal CERCLA ("Superfund") lien can exist by operation of law at any site or property at which EPA has spent Superfund monies. This database is made available by the United States Environmental Protection Agency (EPA).

Government Publication Date: Jan 30, 2014

RCRA CORRACTS-Corrective Action:

RCRA CORRACTS

RCRA Info is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. At these sites, the Corrective Action Program ensures that cleanups occur. EPA and state regulators work with facilities and communities to design remedies based on the contamination, geology, and anticipated use unique to each site.

Government Publication Date: Dec 17, 2018

RCRA non-CORRACTS TSD Facilities:

RCRA TSD

RCRA Info is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. This database includes Non-Corrective Action sites listed as treatment, storage and/or disposal facilities of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA).

Government Publication Date: Dec 17, 2018

RCRA Generator List:

RCRA LQG

RCRA Info is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. RCRA Info replaces the data recording and reporting abilities of the Resource Conservation and Recovery Information System (RCRIS) and the Biennial Reporting System (BRS). A hazardous waste generator is any person or site whose processes and actions create hazardous waste (see 40 CFR 260.10). Large Quantity Generators (LQGs) generate 1,000 kilograms per month or more of hazardous waste or more than one kilogram per month of acutely hazardous waste.

Government Publication Date: Dec 17, 2018

RCRA Small Quantity Generators List:

RCRA SQG

RCRA Info is the EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. RCRA Info replaces the data recording and reporting abilities of the Resource Conservation and Recovery Information System (RCRIS) and the Biennial Reporting System (BRS). A hazardous waste generator is any person or site whose processes and actions create hazardous waste (see 40 CFR 260.10). Small Quantity Generators (SQGs) generate more than 100 kilograms, but less than 1,000 kilograms, of hazardous waste per month.

Government Publication Date: Dec 17, 2018

RCRA Conditionally Exempt Small Quantity Generators List:[RCRA CESQG](#)

RCRA Info is the EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. RCRA Info replaces the data recording and reporting abilities of the Resource Conservation and Recovery Information System (RCRIS) and the Biennial Reporting System (BRS). A hazardous waste generator is any person or site whose processes and actions create hazardous waste (see 40 CFR 260.10). Conditionally Exempt Small Quantity Generators (CESQG) generate 100 kilograms or less per month of hazardous waste or one kilogram or less per month of acutely hazardous waste.

Government Publication Date: Dec 17, 2018

RCRA Non-Generators:[RCRA NON GEN](#)

RCRA Info is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. RCRA Info replaces the data recording and reporting abilities of the Resource Conservation and Recovery Information System (RCRIS) and the Biennial Reporting System (BRS). A hazardous waste generator is any person or site whose processes and actions create hazardous waste (see 40 CFR 260.10). Non-Generators do not presently generate hazardous waste.

Government Publication Date: Dec 17, 2018

Federal Engineering Controls-ECs:[FED ENG](#)

Engineering controls (ECs) encompass a variety of engineered and constructed physical barriers (e.g., soil capping, sub-surface venting systems, mitigation barriers, fences) to contain and/or prevent exposure to contamination on a property. This database is made available by the United States Environmental Protection Agency (EPA).

Government Publication Date: Jan 20, 2016

Federal Institutional Controls- ICs:[FED INST](#)

Institutional controls are non-engineered instruments, such as administrative and legal controls, that help minimize the potential for human exposure to contamination and/or protect the integrity of the remedy. Although it is EPA's (United States Environmental Protection Agency) expectation that treatment or engineering controls will be used to address principal threat wastes and that groundwater will be returned to its beneficial use whenever practicable, ICs play an important role in site remedies because they reduce exposure to contamination by limiting land or resource use and guide human behavior at a site.

Government Publication Date: Jan 20, 2016

Emergency Response Notification System:[ERNS 1982 TO 1986](#)

Database of oil and hazardous substances spill reports controlled by the National Response Center. The primary function of the National Response Center is to serve as the sole national point of contact for reporting oil, chemical, radiological, biological, and etiological discharges into the environment anywhere in the United States and its territories.

Government Publication Date: 1982-1986

Emergency Response Notification System:[ERNS 1987 TO 1989](#)

Database of oil and hazardous substances spill reports controlled by the National Response Center. The primary function of the National Response Center is to serve as the sole national point of contact for reporting oil, chemical, radiological, biological, and etiological discharges into the environment anywhere in the United States and its territories.

Government Publication Date: 1987-1989

Emergency Response Notification System:[ERNS](#)

Database of oil and hazardous substances spill reports controlled by the National Response Center. The primary function of the National Response Center is to serve as the sole national point of contact for reporting oil, chemical, radiological, biological, and etiological discharges into the environment anywhere in the United States and its territories. This database is made available by the United States Environmental Protection Agency (EPA).

Government Publication Date: Sep 24, 2018

The Assessment, Cleanup and Redevelopment Exchange System (ACRES) Brownfield Database:[FED BROWNFIELDS](#)

Brownfields are real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. Cleaning up and reinvesting in these properties protects the environment, reduces blight, and takes development pressures off greenspaces and working lands. This database is made available by the United States Environmental Protection Agency (EPA).

Government Publication Date: Jan 11, 2019

FEMA Underground Storage Tank Listing:[FEMA UST](#)

The Federal Emergency Management Agency (FEMA) of the Department of Homeland Security maintains a list of FEMA owned underground storage tanks.

Government Publication Date: Dec 31, 2017

LIEN on Property:

SEMS LIEN

The EPA Superfund Enterprise Management System (SEMS) provides LIEN information on properties under the EPA Superfund Program.

Government Publication Date: Feb 6, 2019

Superfund Decision Documents:

SUPERFUND ROD

This database contains a listing of decision documents for Superfund sites. Decision documents serve to provide the reasoning for the choice of (or) changes to a Superfund Site cleanup plan. The decision documents include Records of Decision (ROD), ROD Amendments, Explanations of Significant Differences (ESD), along with other associated memos and files. This information is maintained and made available by the US EPA (Environmental Protection Agency).

Government Publication Date: Feb 12, 2019

State**State Response Sites:**

RESPONSE

A list of identified confirmed release sites where the Department of Toxic Substances Control (DTSC) is involved in remediation, either in a lead or oversight capacity. These confirmed release sites are generally high-priority and high potential risk. This database is state equivalent NPL.

Government Publication Date: Mar 11, 2019

EnviroStor Database:

ENVIROSTOR

The EnviroStor Data Management System is made available by the Department of Toxic Substances Control (DTSC). Includes Corrective Action sites, Tiered Permit sites, Historical Sites and Evaluation/Investigation sites. This database is state equivalent CERCLIS.

Government Publication Date: Mar 11, 2019

Delisted State Response Sites:

DELISTED ENVS

Sites removed from the list of State Response Sites made available by the EnviroStor Data Management System, Department of Toxic Substances Control (DTSC).

Government Publication Date: Mar 11, 2019

Solid Waste Information System (SWIS):

SWF/LF

The Solid Waste Information System (SWIS) database made available by the Department of Resources Recycling and Recovery (CalRecycle) contains information on solid waste facilities, operations, and disposal sites throughout the State of California. The types of facilities found in this database include landfills, transfer stations, material recovery facilities, composting sites, transformation facilities, waste tire sites, and closed disposal sites.

Government Publication Date: Feb 11, 2019

EnviroStor Hazardous Waste Facilities:

HWP

A list of hazardous waste facilities including permitted, post-closure and historical facilities found in the Department of Toxic Substances Control (DTSC) EnviroStor database.

Government Publication Date: Mar 11, 2019

Land Disposal Sites:

LDS

Land Disposal Sites in GeoTracker, the State Water Resources Control Board (SWRCB)'s data management system. The Land Disposal program regulates of waste discharge to land for treatment, storage and disposal in waste management units. Waste management units include waste piles, surface impoundments, and landfills.

Government Publication Date: Nov 30, 2018

Sites Listed in the Solid Waste Assessment Test (SWAT) Program Report:

SWAT

In a 1993 Memorandum of Understanding, the State Water Resources Control Board (SWRCB) agreed to submit a comprehensive report on the Solid Waste Assessment Test (SWAT) Program to the California Integrated Waste Management Board (CIWMB). This report summarizes the work completed to date on the SWAT Program, and addresses both the impacts that leakage from solid waste disposal sites (SWDS) may have upon waters of the State and the actions taken to address such leakage.

Government Publication Date: Dec 31, 1995

Leaking Underground Fuel Tank Reports:

LUST

List of Leaking Underground Storage Tanks within the Cleanup Sites data in GeoTracker database. GeoTracker is the State Water Resources Control Board's (SWRCB) data management system for managing sites that impact groundwater, especially those that require groundwater cleanup (Underground Storage Tanks, Department of Defense and Site Cleanup Program) as well as permitted facilities such as operating Underground Storage Tanks. The Leak Prevention Program that overlooks LUST sites is the SWRCB in California's Environmental Protection Agency.

Delisted Leaking Storage Tanks:

[DELISTED LST](#)

List of Leaking Underground Storage Tanks (LUST) cleanup sites removed from GeoTracker, the State Water Resources Control Board (SWRCB)'s database system, as well as sites removed from the SWRCB's list of UST Case closures.

Government Publication Date: March 11, 2019

Permitted Underground Storage Tank (UST) in GeoTracker:

[UST](#)

List of Permitted Underground Storage Tank (UST) sites made available by the State Water Resources Control Board (SWRCB) in California's Environmental Protection Agency (EPA).

Government Publication Date: Nov 30, 2018

Solid Waste Disposal Sites with Waste Constituents Above Hazardous Waste Levels:

[SWRCB SWF](#)

This is a list of solid waste disposal sites identified by California State Water Resources Control Board with waste constituents above hazardous waste levels outside the waste management unit.

Government Publication Date: Sep 20, 2006

Proposed Closure of Underground Storage Tank Cases:

[UST CLOSURE](#)

List of UST cases that are being considered for closure by either the California Environmental Protection Agency, State Water Resources Control Board or the Executive Director that have been posted for a 60-day public comment period.

Government Publication Date: Mar 11, 2019

Historical Hazardous Substance Storage Information Database:

[HHSS](#)

The Historical Hazardous Substance Storage database contains information collected in the 1980s from facilities that stored hazardous substances. The information was originally collected on paper forms, was later transferred to microfiche, and recently indexed as a searchable database. When using this database, please be aware that it is based upon self-reported information submitted by facilities which has not been independently verified. It is unlikely that every facility responded to the survey and the database should not be expected to be a complete inventory of all facilities that were operating at that time. This database is maintained by the California State Water Resources Control Board's (SWRCB) Geotracker.

Government Publication Date: Aug 27, 2015

Aboveground Storage Tanks:

[AST](#)

A statewide list from 2009 of aboveground storage tanks (ASTs) made available by the Cal FIRE Office of the State Fire Marshal (OSFM). This list is no longer maintained or updated by the Cal FIRE OSFM.

Government Publication Date: Aug 31, 2009

Delisted Storage Tanks:

[DELISTED TNK](#)

This database contains a list of storage tank sites that were removed by the State Water Resources Control Board (SWRCB) in California's Environmental Protection Agency (EPA) and the Cal FIRE Office of State Fire Marshal (OSFM).

Government Publication Date: Mar 11, 2019

California Environmental Reporting System (CERS) Tanks:

[CERS TANK](#)

List of sites in the California Environmental Protection Agency (CalEPA) Regulated Site Portal which fall under the Aboveground Petroleum Storage and Underground Storage Tank regulatory programs. The CalEPA oversees the statewide implementation of the Unified Program which applies regulatory standards to protect Californians from hazardous waste and materials.

Government Publication Date: Feb 13, 2019

Site Mitigation and Brownfields Reuse Program Facility Sites with Land Use Restrictions:

[LUR](#)

The Department of Toxic Substances Control (DTSC) Site Mitigation and Brownfields Reuse Program (SMBRP) list includes sites cleaned up under the program's oversight and generally does not include current or former hazardous waste facilities that required a hazardous waste facility permit. The list represents land use restrictions that are active. Some sites have multiple land use restrictions.

Government Publication Date: Mar 11, 2019

Hazardous Waste Management Program Facility Sites with Deed / Land Use Restrictions:

[HLUR](#)

The Department of Toxic Substances Control (DTSC) Hazardous Waste Management Program (HWMP) has developed a list of current or former hazardous waste facilities that have a recorded land use restriction at the local county recorder's office. The land use restrictions on this list were required by the DTSC HWMP as a result of the presence of hazardous substances that remain on site after the facility (or part of the facility) has been closed or cleaned up. The types of land use restriction include deed notice, deed restriction, or a land use restriction that binds current and future owners.

Deed Restrictions and Land Use Restrictions:

[DEED](#)

List of Deed Restrictions, Land Use Restrictions and Covenants in GeoTracker made available by the State Water Resources Control Board (SWRCB) in California's Environmental Protection Agency. A deed restriction (land use covenant) may be required to facilitate the remediation of past environmental contamination and to protect human health and the environment by reducing the risk of exposure to residual hazardous materials.

Government Publication Date: Nov 30, 2018

Voluntary Cleanup Program:

[VCP](#)

List of sites in the Voluntary Cleanup Program made available by the Department of Toxic Substances and Control (DTSC). The Voluntary Cleanup Program was designed to respond to lower priority sites. Under the Voluntary Cleanup Program, DTSC enters site-specific agreements with project proponents for DTSC oversight of site assessment, investigation, and/or removal or remediation activities, and the project proponents agree to pay DTSC's reasonable costs for those services.

Government Publication Date: Mar 11, 2019

GeoTracker Cleanup Sites Data:

[CLEANUP SITES](#)

A list of cleanup sites in the state of California made available by The State Water Resources Control Board (SWRCB) of the California Environmental Protection Agency (EPA). SWRCB tracks leaking underground storage tank cleanups as well as other water board cleanups.

Government Publication Date: Nov 30, 2018

Delisted California Environmental Reporting System (CERS) Tanks:

[DELISTED CTNK](#)

This database contains a list of Aboveground Petroleum Storage and Underground Storage Tank sites that were removed from in the California Environmental Protection Agency (CalEPA) Regulated Site Portal.

Government Publication Date: Feb 13, 2019

Historical Hazardous Substance Storage Container Information - Facility Summary:

[HIST TANK](#)

The State Water Resources Control Board maintained the Hazardous Substance Storage Containers listing and inventory in the 1980s. This facility summary lists historic tank sites where the following container types were present: farm motor vehicle fuel tanks; waste tanks; sumps; pits, ponds, lagoons, and others; and all other product tanks. This set, published in May 1988, lists facility and owner information, as well as the number of containers. This data is historic and will not be updated.

Government Publication Date: May 27, 1988

Tribal

Leaking Underground Storage Tanks (LUSTs) on Indian Lands:

[INDIAN LUST](#)

LUSTs on Tribal/Indian Lands in Region 9, which includes California.

Government Publication Date: Dec 31, 2017

Underground Storage Tanks (USTs) on Indian Lands:

[INDIAN UST](#)

USTs on Tribal/Indian Lands in Region 9, which includes California.

Government Publication Date: Dec 31, 2017

Delisted Tribal Leaking Storage Tanks:

[DELISTED ILST](#)

Leaking Underground Storage Tank facilities which have been removed from the Regional Tribal LUST lists made available by the EPA.

Government Publication Date: Oct 14, 2017

Delisted Tribal Underground Storage Tanks:

[DELISTED IUUST](#)

Underground Storage Tank facilities which have been removed from the Regional Tribal UST lists made available by the EPA.

Government Publication Date: Oct 14, 2017

County

Delisted County Records:

[DELISTED COUNTY](#)

Records removed from county or CUPA databases. Records may be removed from the county lists made available by the respective county departments because they are inactive, or because they have been deemed to be below reportable thresholds.

Los Angeles County - Burbank City CUPA List:

[BURBANK CUPA](#)

A list of facilities associated with various Certified Unified Program Agency (CUPA) programs in the City of Burbank. This list is made available by the City of Burbank Fire Department.

Government Publication Date: Feb 4, 2019

Los Angeles County - El Segundo City Underground Storage Tanks List:

[UST ELSEGUNDO](#)

List of registered Underground Storage Tanks (USTs) in the City of El Segundo of Los Angeles County, made available by El Segundo City Fire Department.

Government Publication Date: Jan 17, 2017

Los Angeles County - Santa Fe Springs Underground Storage Tank:

[UST SANTAFESP](#)

A list of registered active Underground Storage Tanks (USTs) in the City of Santa Fe Springs. This list is made available by Santa Fe Springs Department of Fire-Rescue.

Government Publication Date: Mar 12, 2019

Los Angeles County - Santa Monica City Aboveground Storage Tank List:

[SANTAMON AST](#)

List of registered Aboveground Storage Tanks (ASTs) made available by the Santa Monica Fire Department in the City of Santa Monica of Los Angeles County, California.

Government Publication Date: Feb 20, 2019

Los Angeles County - Santa Monica City CUPA Facilities List:

[SANTAMON CUPA](#)

The Santa Monica Fire Department's office maintains a list of CUPA Facilities located in Santa Monica city.

Government Publication Date: Feb 20, 2019

Los Angeles County - Santa Monica City Underground Storage Tank List:

[UST SANTA MONICA](#)

A list of registered active Underground Storage Tanks (USTs) in the City of Santa Monica made available by Santa Monica Fire Prevention Division.

Government Publication Date: Feb 20, 2019

Los Angeles County - Torrance City Underground Storage Tanks:

[UST TORRANCE](#)

A list of registered Underground Storage Tank (UST) sites in Torrance City of Los Angeles County. This list is made available by Torrance City Office of Clerk.

Government Publication Date: Oct 2, 2018

Los Angeles County - Vernon City CUPA List:

[VERNON CUPA](#)

The Vernon City Fire Department's office maintains a list of CUPA Facilities located in Vernon city.

Government Publication Date: Feb 14, 2019

Los Angeles County - Vernon City UST List:

[UST VERNON](#)

A list of Underground Storage Tanks (UST) in Vernon City provided by the Vernon City Fire Department.

Government Publication Date: Jan 16, 2019

Los Angeles County - HMS List:

[LA HMS](#)

List of sites in the Los Angeles County Department of Public Works Hazardous Materials System (HMS) Database which have or have had permits for Industrial Waste, Underground Storage Tanks, or Stormwater in the county of Los Angeles.

Government Publication Date: Dec 12, 2018

Los Angeles County - Long Beach UST List:

[UST LONGB](#)

List of registered Underground Storage Tanks (USTs) in the City of Long Beach, Los Angeles County, made available by the Long Beach Certified Unified Program Agency (CUPA). The Long Beach CUPA operates under oversight shared by the Long Beach Fire Department and Health Department.

Government Publication Date: Jul 9, 2018

Los Angeles County - Solid Waste Sites:

[LA SWF](#)

List of permitted solid waste facilities, closed landfills, historical dumpsites and other solid waste sites in Los Angeles County, made available by the Department of Public Works in Los Angeles County.

Orange County - Anaheim City UST Cleanup Cases:

UST CLEANUP

A list of UST Cleanup Cases in the City of Anaheim in Orange County. As part of its Groundwater Protection Program, the City of Anaheim managed the UST Cleanup Oversight Program from April 1991 to June 2014. This list is published by the City of Anaheim Underground Storage Tank Cleanup Program.

Government Publication Date: May 26, 2015

San Francisco County - Maher Ordinance:

MAHER SF

List of development projects that are located on sites with known or suspected soil and/or groundwater contamination are subject to the provisions of Health Code Article 22A, which is administered by the San Francisco County Department of Public Health (DPH).

Government Publication Date: Jan 23, 2019

Los Angeles County - City of Los Angeles UST List:

UST LA CITY

A list of active and inactive underground storage tank facilities made available by the Los Angeles Fire Department CUPA.

Government Publication Date: Jan 1, 2019

Los Angeles County - City of Los Angeles AST List:

AST LA CITY

A list of active and inactive above ground petroleum storage tanks made available by the Los Angeles Fire Department CUPA.

Government Publication Date: Jan 1, 2019

Los Angeles County - City of Los Angeles Hazardous Materials Facilities:

LA CITY HAZMAT

A list of active and inactive hazardous materials facilities made available by the Los Angeles Fire Department CUPA.

Government Publication Date: Jan 1, 2019

Additional Environmental Record Sources

Federal

Facility Registry Service/Facility Index:

FINDS/FRS

The US Environmental Protection Agency (EPA)'s Facility Registry System (FRS) is a centrally managed database that identifies facilities, sites or places subject to environmental regulations or of environmental interest. FRS creates high-quality, accurate, and authoritative facility identification records through rigorous verification and management procedures that incorporate information from program national systems, state master facility records, data collected from EPA's Central Data Exchange registrations and data management personnel.

Government Publication Date: Jan 30, 2019

Toxics Release Inventory (TRI) Program:

TRIS

The EPA's Toxics Release Inventory (TRI) is a database containing data on disposal or other releases of over 650 toxic chemicals from thousands of U.S. facilities and information about how facilities manage those chemicals through recycling, energy recovery, and treatment. One of TRI's primary purposes is to inform communities about toxic chemical releases to the environment.

Government Publication Date: Dec 31, 2017

Hazardous Materials Information Reporting System:

HMIRS

US DOT - Department of Transportation Pipeline and Hazardous Materials Safety Administration (PHMSA) Incidents Reports Database taken from Hazmat Intelligence Portal, U.S. Department of Transportation.

Government Publication Date: May 23, 2018

National Clandestine Drug Labs:

NCDL

The U.S. Department of Justice ("the Department") provides this data as a public service. It contains addresses of some locations where law enforcement agencies reported they found chemicals or other items that indicated the presence of either clandestine drug laboratories or dumpsites. In most cases, the source of the entries is not the Department, and the Department has not verified the entry and does not guarantee its accuracy.

Government Publication Date: Jul 18, 2018

Toxic Substances Control Act:

TSCA

The Environmental Protection Agency (EPA) is amending the Toxic Substances Control Act (TSCA) section 8(a) Inventory Update Reporting (IUR) rule and changing its name to the Chemical Data Reporting (CDR) rule.

The CDR enables EPA to collect and publish information on the manufacturing, processing, and use of commercial chemical substances and mixtures (referred to hereafter as chemical substances) on the TSCA Chemical Substance Inventory (TSCA Inventory). This includes current information on chemical substance production volumes, manufacturing sites, and how the chemical substances are used. This information helps the Agency determine whether people or the environment are potentially exposed to reported chemical substances. EPA publishes submitted CDR data that is not Confidential Business Information (CBI).

Government Publication Date: Jun 30, 2017

Hist TSCA:

[HIST TSCA](#)

The Environmental Protection Agency (EPA) is amending the Toxic Substances Control Act (TSCA) section 8(a) Inventory Update Reporting (IUR) rule and changing its name to the Chemical Data Reporting (CDR) rule.

The 2006 IUR data summary report includes information about chemicals manufactured or imported in quantities of 25,000 pounds or more at a single site during calendar year 2005. In addition to the basic manufacturing information collected in previous reporting cycles, the 2006 cycle is the first time EPA collected information to characterize exposure during manufacturing, processing and use of organic chemicals. The 2006 cycle also is the first time manufacturers of inorganic chemicals were required to report basic manufacturing information.

Government Publication Date: Dec 31, 2006

FTTS Administrative Case Listing:

[FTTS ADMIN](#)

An administrative case listing from the Federal Insecticide, Fungicide, & Rodenticide Act (FIFRA) and Toxic Substances Control Act (TSCA), together known as FTTS. This database was obtained from the Environmental Protection Agency's (EPA) National Compliance Database (NCDB). The FTTS and NCDB was shut down in 2006.

Government Publication Date: Jan 19, 2007

FTTS Inspection Case Listing:

[FTTS INSP](#)

An inspection case listing from the Federal Insecticide, Fungicide, & Rodenticide Act (FIFRA) and Toxic Substances Control Act (TSCA), together known as FTTS. This database was obtained from the Environmental Protection Agency's (EPA) National Compliance Database (NCDB). The FTTS and NCDB was shut down in 2006.

Government Publication Date: Jan 19, 2007

Potentially Responsible Parties List:

[PRP](#)

Early in the cleanup process, the Environmental Protection Agency (EPA) conducts a search to find the potentially responsible parties (PRPs). EPA looks for evidence to determine liability by matching wastes found at the site with parties that may have contributed wastes to the site.

Government Publication Date: Dec 20, 2018

State Coalition for Remediation of Drycleaners Listing:

[SCRD DRYCLEANER](#)

The State Coalition for Remediation of Drycleaners (SCRD) was established in 1998, with support from the U.S. Environmental Protection Agency (EPA) Office of Superfund Remediation and Technology Innovation. Coalition members are states with mandated programs and funding for drycleaner site remediation. Current members are Alabama, Connecticut, Florida, Illinois, Kansas, Minnesota, Missouri, North Carolina, Oregon, South Carolina, Tennessee, Texas, and Wisconsin.

Government Publication Date: Nov 08, 2017

Integrated Compliance Information System (ICIS):

[ICIS](#)

The Integrated Compliance Information System (ICIS) is a system that provides information for the Federal Enforcement and Compliance (FE&C) and the National Pollutant Discharge Elimination System (NPDES) programs. The FE&C component supports the Environmental Protection Agency's (EPA) Civil Enforcement and Compliance program activities. These activities include Compliance Assistance, Compliance Monitoring and Enforcement. The NPDES program supports tracking of NPDES permits, limits, discharge monitoring data and other program reports.

Government Publication Date: Nov 18, 2016

Drycleaner Facilities:

[FED DRYCLEANERS](#)

A list of drycleaner facilities from the Integrated Compliance Information System (ICIS). The Environmental Protection Agency (EPA) tracks facilities that possess NAIC and SIC codes that classify businesses as drycleaner establishments.

Government Publication Date: May 29, 2018

Delisted Drycleaner Facilities:

[DELISTED FED DRY](#)

List of sites removed from the list of Drycleaner Facilities (sites in the EPA's Integrated Compliance Information System (ICIS) with NAIC or SIC codes identifying the business as a drycleaner establishment).

Government Publication Date: May 29, 2018

Formerly Used Defense Sites:

FUDS

Formerly Used Defense Sites (FUDS) are properties that were formerly owned by, leased to, or otherwise possessed by and under the jurisdiction of the Secretary of Defense prior to October 1986, where the Department of Defense (DoD) is responsible for an environmental restoration. This list is published by the U.S. Army Corps of Engineers.

Government Publication Date: Oct 23, 2018

Material Licensing Tracking System (MLTS):

MLTS

A list of sites that store radioactive material subject to the Nuclear Regulatory Commission (NRC) licensing requirements. This list is maintained by the NRC. As of September 2016, the NRC no longer releases location information for sites. Site locations were last received in July 2016.

Government Publication Date: Nov 1, 2018

Historic Material Licensing Tracking System (MLTS) sites:

HIST MLTS

A historic list of sites that have inactive licenses and/or removed from the Material Licensing Tracking System (MLTS). In some cases, a site is removed from the MLTS when the state becomes an "Agreement State". An Agreement State is a State that has signed an agreement with the Nuclear Regulatory Commission (NRC) authorizing the State to regulate certain uses of radioactive materials within the State.

Government Publication Date: Jan 31, 2010

Mines Master Index File:

MINES

The Master Index File (MIF) contains mine identification numbers issued by the Department of Labor Mine Safety and Health Administration (MSHA) for mines active or opened since 1971. Note that addresses may or may not correspond with the physical location of the mine itself.

Government Publication Date: Nov 30, 2018

Alternative Fueling Stations:

ALT FUELS

List of alternative fueling stations made available by the US Department of Energy's Office of Energy Efficiency & Renewable Energy. Includes Biodiesel stations, Ethanol (E85) stations, Liquefied Petroleum Gas (Propane) stations, Ethanol (E85) stations, Natural Gas stations, Hydrogen stations, and Electric Vehicle Supply Equipment (EVSE). The National Renewable Energy Laboratory (NREL) obtains information about new stations from trade media, Clean Cities coordinators, a Submit New Station form on the Station Locator website, and through collaborating with infrastructure equipment and fuel providers, original equipment manufacturers (OEMs), and industry groups.

Government Publication Date: Jan 15, 2019

Registered Pesticide Establishments:

SSTS

List of active EPA-registered foreign and domestic pesticide-producing and device-producing establishments based on data from the Section Seven Tracking System (SSTS). The Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) Section 7 requires that facilities producing pesticides, active ingredients, or devices be registered. The list of establishments is made available by the EPA.

Government Publication Date: Sep 1, 2018

Polychlorinated Biphenyl (PCB) Notifiers:

PCB

Facilities included in the national list of facilities that have notified the United States Environmental Protection Agency (EPA) of Polychlorinated Biphenyl (PCB) activities. Any company or person storing, transporting or disposing of PCBs or conducting PCB research and development must notify the EPA and receive an identification number.

Government Publication Date: Sep 14, 2018

State**Dry Cleaning Facilities:**

DRYCLEANERS

A list of drycleaner related facilities that have EPA ID numbers. These are facilities with certain SIC codes: power laundries, family and commercial, linen supply, commercial laundry, dry cleaning and pressing machines - Coin Operated Laundry and Dry Cleaning. This is provided by the Department of Toxic Substance Control.

Government Publication Date: Jan 18, 2019

Delisted Drycleaners:

DELISTED DRYCLEANERS

Sites removed from the list of drycleaner related facilities that have EPA ID numbers, made available by the California Department of Toxic Substance Control.

Government Publication Date: Jan 18, 2019

Non-Toxic Dry Cleaning Incentive Program:

DRYC GRANT

A list of grant recipients of the Non-Toxic Dry Cleaning Incentive Program made available by the California Air Resources Board (CARB). The program provides grants to eligible dry cleaning businesses to assist them in transitioning away from PERC machines to alternative non-toxic and non-smog forming technologies.

Government Publication Date: Feb 28, 2018

Hazardous Waste and Substances Site List - Site Cleanup:

[HWSS CLEANUP](#)

The Hazardous Waste and Substances Sites (Cortese) List is a planning document used by the State, local agencies and developers to comply with the California Environmental Quality Act requirements in providing information about the location of hazardous materials release sites. This list is published by California Department of Toxic Substance Control.

Government Publication Date: Dec 4, 2018

List of Hazardous Waste Facilities Subject to Corrective Action:

[DTSC HWF](#)

This is a list of hazardous waste facilities identified in Health and Safety Code (HSC) § 25187.5. These facilities are those where Department of Toxic Substances Control (DTSC) has taken or contracted for corrective action because a facility owner/operator has failed to comply with a date for taking corrective action in an order issued under HSC § 25187, or because DTSC determined that immediate corrective action was necessary to abate an imminent or substantial endangerment.

Government Publication Date: Jul 18, 2016

EnviroStor Inspection, Compliance, and Enforcement:

[INSP COMP ENF](#)

A list of permitted facilities with inspections and enforcements tracked in the Department of Toxic Substance Control (DTSC) EnviroStor.

Government Publication Date: Jan 21, 2019

School Property Evaluation Program Sites:

[SCH](#)

A list of sites registered with The Department of Toxic Substances Control (DTSC) School Property Evaluation and Cleanup (SPEC) Division. SPEC is responsible for assessing, investigating and cleaning up proposed school sites. The Division ensures that selected properties are free of contamination or, if the properties were previously contaminated, that they have been cleaned up to a level that protects the students and staff who will occupy the new school.

Government Publication Date: Mar 11, 2019

California Hazardous Material Incident Report System (CHMIRS):

[CHMIRS](#)

A list of reported hazardous material incidents, spills, and releases from the California Hazardous Material Incident Report System (CHMIRS). This list has been made available by the California Office of Emergency Services (OES).

Government Publication Date: Jan 25, 2019

Hazardous Waste Manifest Data:

[HAZNET](#)

A list of hazardous waste manifests received each year by Department of Toxic Substances Control (DTSC). The volume of manifests is typically 900,000 - 1,000,000 annually, representing approximately 450,000 - 500,000 shipments.

Government Publication Date: Oct 24, 2016

Historical California Hazardous Material Incident Report System (CHMIRS):

[HIST CHMIRS](#)

A list of reported hazardous material incidents, spills, and releases from the California Hazardous Material Incident Report System (CHMIRS) prior to 1993. This list has been made available by the California Office of Emergency Services (OES).

Government Publication Date: Jan 1, 1993

Historical Hazardous Waste Manifest Data:

[HIST MANIFEST](#)

A list of historic hazardous waste manifests received by the Department of Toxic Substances Control (DTSC) from year the 1980 to 1992. The volume of manifests is typically 900,000 - 1,000,000 annually, representing approximately 450,000 - 500,000 shipments.

Government Publication Date: Dec 31, 1992

Historical Cortese List:

[HIST CORTESE](#)

List of sites which were once included on the Cortese list. The Hazardous Waste and Substances Sites (Cortese) List is a planning document used by the State, local agencies and developers to comply with the California Environmental Quality Act requirements for providing information about the location of hazardous sites.

Government Publication Date: Nov 13, 2008

Cease and Desist Orders and Cleanup and Abatement Orders:

[CDO/CAO](#)

The California Environment Protection Agency "Cortese List" of active Cease and Desist Orders (CDO) and Cleanup and Abatement Orders (CAO). This list contains many CDOs and CAOs that do NOT concern the discharge of wastes that are hazardous materials. Many of the listed orders concern, as examples, discharges of domestic sewage, food processing wastes, or sediment that do not contain hazardous materials, but the Water Boards' database does not distinguish between these types of orders.

Government Publication Date: Feb 16, 2012

California Environmental Reporting System (CERS) Hazardous Waste Sites:

[CERS HAZ](#)

List of sites in the California Environmental Protection Agency (CalEPA) Regulated Site Portal which fall under the following regulatory programs: Hazardous Chemical Management, Hazardous Waste Onsite Treatment, Household Hazardous Waste Collection, Hazardous Waste Generator, RCRA LQ HW Generator. The CalEPA oversees the statewide implementation of the Unified Program which applies regulatory standards to protect Californians from hazardous waste and materials.

Government Publication Date: Feb 13, 2019

Delisted Environmental Reporting System (CERS) Hazardous Waste Sites:

[DELISTED HAZ](#)

This database contains a list of sites that were removed from the California Environmental Protection Agency (CalEPA) in the following regulatory programs: Hazardous Chemical Management, Hazardous Waste Onsite Treatment, Household Hazardous Waste Collection, Hazardous Waste Generator, RCRA LQ HW Generator.

Government Publication Date: Nov 29, 2018

Waste Discharge Requirements:

[WASTE DISCHG](#)

List of sites in California State Water Resources Control Board (SWRCB) Waste Discharge Requirements (WDRs) Program in California, made available by the SWRCB via GeoTracker. The WDR program regulates point discharges that are exempt pursuant to Subsection 20090 of Title 27 and not subject to the Federal Water Pollution Control Act. The scope of the WDRs Program also includes the discharge of wastes classified as inert, pursuant to section 20230 of Title 27.

Government Publication Date: Nov 30, 2018

Toxic Pollutant Emissions Facilities:

[EMISSIONS](#)

A list of criteria and toxic pollutant emissions data for facilities in California made available by the California Environmental Protection Agency - Air Resources Board (ARB). Risk data may be based on previous inventory submittals. The toxics data are submitted to the ARB by the local air districts as requirement of the Air Toxics "Hot Spots" Program. This program requires emission inventory updates every four years.

Government Publication Date: Dec 31, 2016

Clandestine Drug Lab Sites:

[CDL](#)

The Department of Toxic Substances Control (DTSC) maintains a listing of drug lab sites. DTSC is responsible for removal and disposal of hazardous substances discovered by law enforcement officials while investigating illegal/ clandestine drug laboratories.

Government Publication Date: Dec 31, 2017

Tribal

No Tribal additional environmental record sources available for this State.

County

Los Angeles County - Site Mitigation List:

[LA SML](#)

A Site Mitigation List in the County of Los Angeles. The list is made available by Los Angeles County Fire Department. Site mitigation is handled by the Site Mitigation Unit (SMU) which facilitates completion of site clean-up projects of contaminated sites in an expeditious manner in all cities of the Los Angeles County except El Segundo, Glendale, Long Beach, Santa Fe Springs, and Vernon.

Government Publication Date: Jan 9, 2019

Los Angeles County - Santa Monica City Hazardous Materials Facilities:

[SANTAMON HAZ](#)

A list of Hazardous Materials Facilities in the City of Santa Monica, Los Angeles county. This list is made available by Santa Monica Fire Prevention Division which has been designated as the CUPA for the City.

Government Publication Date: Feb 20, 2019

Los Angeles County - Santa Monica City Hazardous Waste Facilities:

[SANTAMON HW](#)

A list of Hazardous Waste Facilities in Los Angeles County, City of Santa Monica. This list is made available by Santa Monica Fire Prevention Division.

Government Publication Date: Feb 20, 2019

Definitions

Database Descriptions: This section provides a detailed explanation for each database including: source, information available, time coverage, and acronyms used. They are listed in alphabetic order.

Detail Report: This is the section of the report which provides the most detail for each individual record. Records are summarized by location, starting with the project property followed by records in closest proximity.

Distance: The distance value is the distance between plotted points, not necessarily the distance between the sites' boundaries. All values are an approximation.

Direction: The direction value is the compass direction of the site in respect to the project property and/or center point of the report.

Elevation: The elevation value is taken from the location at which the records for the site address have been plotted. All values are an approximation. Source: Google Elevation API.

Executive Summary: This portion of the report is divided into 3 sections:

'Report Summary'- Displays a chart indicating how many records fall on the project property and, within the report search radii.

'Site Report Summary'-Project Property'- This section lists all the records which fall on the project property. For more details, see the 'Detail Report' section.

'Site Report Summary-Surrounding Properties'- This section summarizes all records on adjacent properties, listing them in order of proximity from the project property. For more details, see the 'Detail Report' section.

Map Key: The map key number is assigned according to closest proximity from the project property. Map Key numbers always start at #1. The project property will always have a map key of '1' if records are available. If there is a number in brackets beside the main number, this will indicate the number of records on that specific property. If there is no number in brackets, there is only one record for that property.

The symbol and colour used indicates 'elevation': the red inverted triangle will dictate 'ERIS Sites with Lower Elevation', the yellow triangle will dictate 'ERIS Sites with Higher Elevation' and the orange square will dictate 'ERIS Sites with Same Elevation.'

Unplottables: These are records that could not be mapped due to various reasons, including limited geographic information. These records may or may not be in your study area, and are included as reference.
